# Getting Started : Know your Sensible

---

General information about the product that explains the basic functionalities of the device.

1. Outdoor air quality of any city/location

2. Indoor air quality data

3. Prana Air Logo - Home Button

4. Micro SD Card slot (Storage upto 4GB)

5. 5V DC Type-C Power supply

**1** Sensible Monitor is a plug-and-play air quality monitoring device. Simply insert the Type-C cable into the Power supply slot on the back of the monitor and connect it to a power source.

**2** There is a WiFi icon on the top of the screen. Once it is connected to a WiFi network, it will turn green. (Refer to page no. 8).

**3** SENSIBLE Air quality monitor detects following parameters :

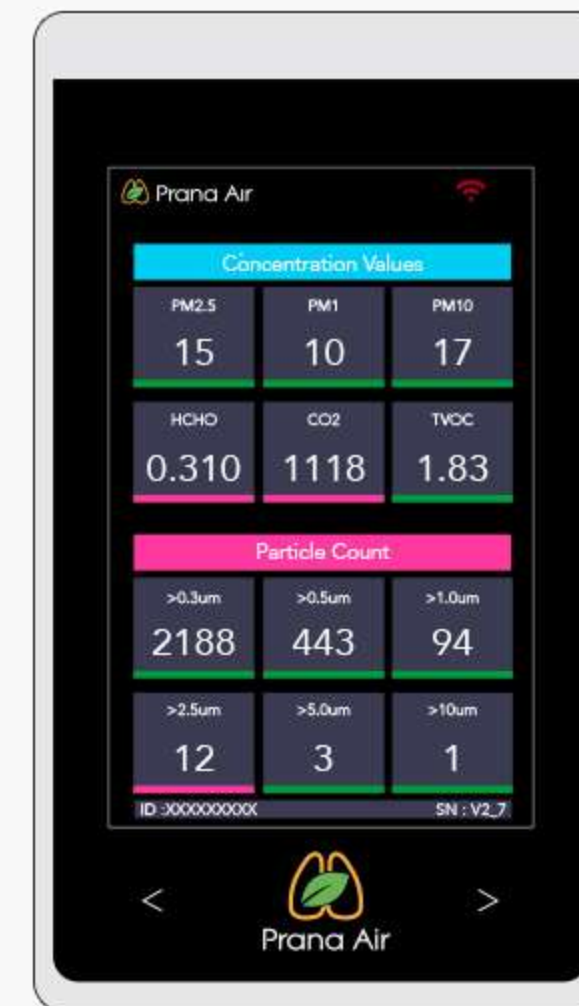

4 Use the '< >' icons to move between the screens :

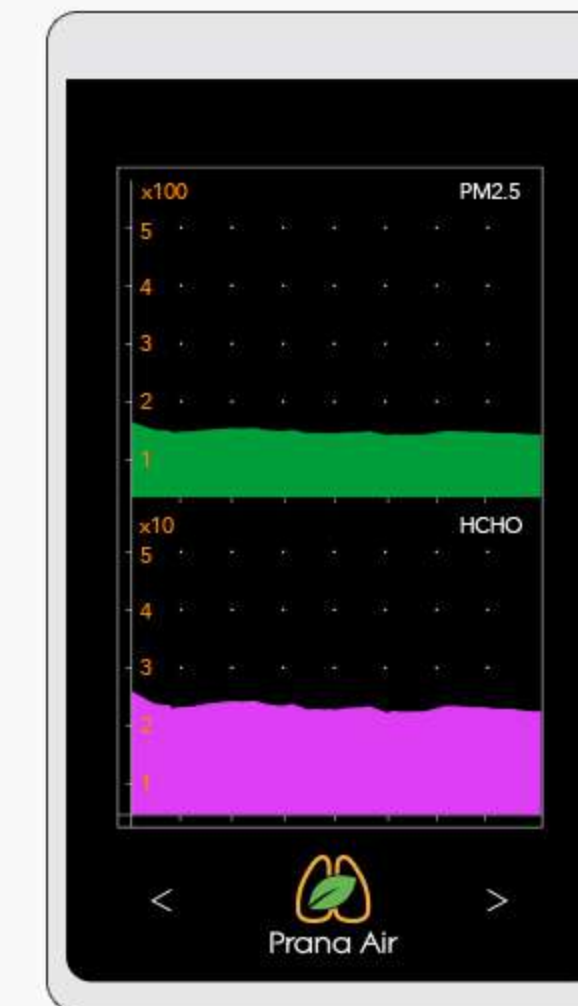

4.1 All air quality parameters

4.2 Particle count data

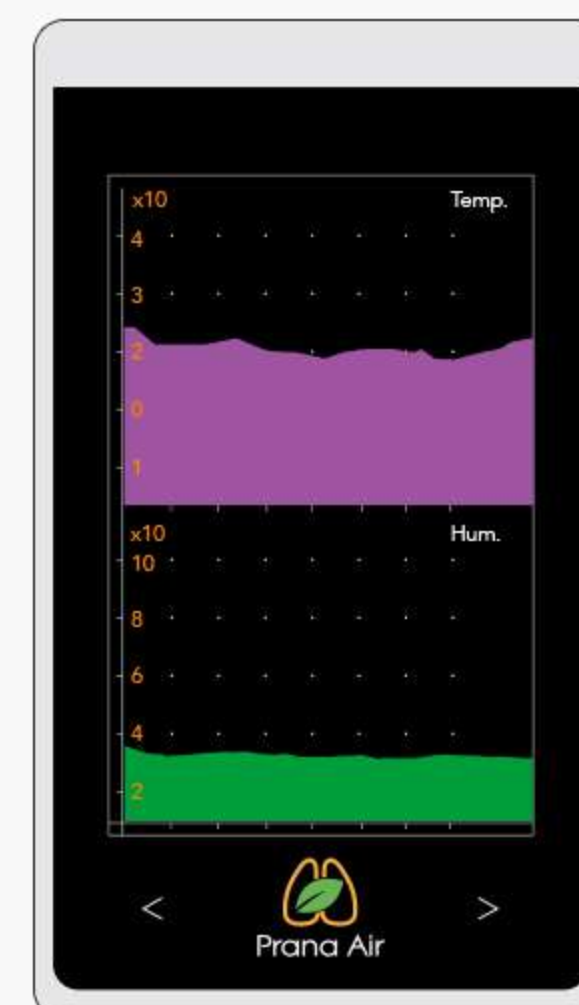

4.3 PM2.5 and HCHO Graph

4.4 CO2 and O3 Graph

4.5 Temp. and Humidity Graph

NOTE :

Tap the 'Prana Air' logo at the bottom panel to go directly to the HOME screen.

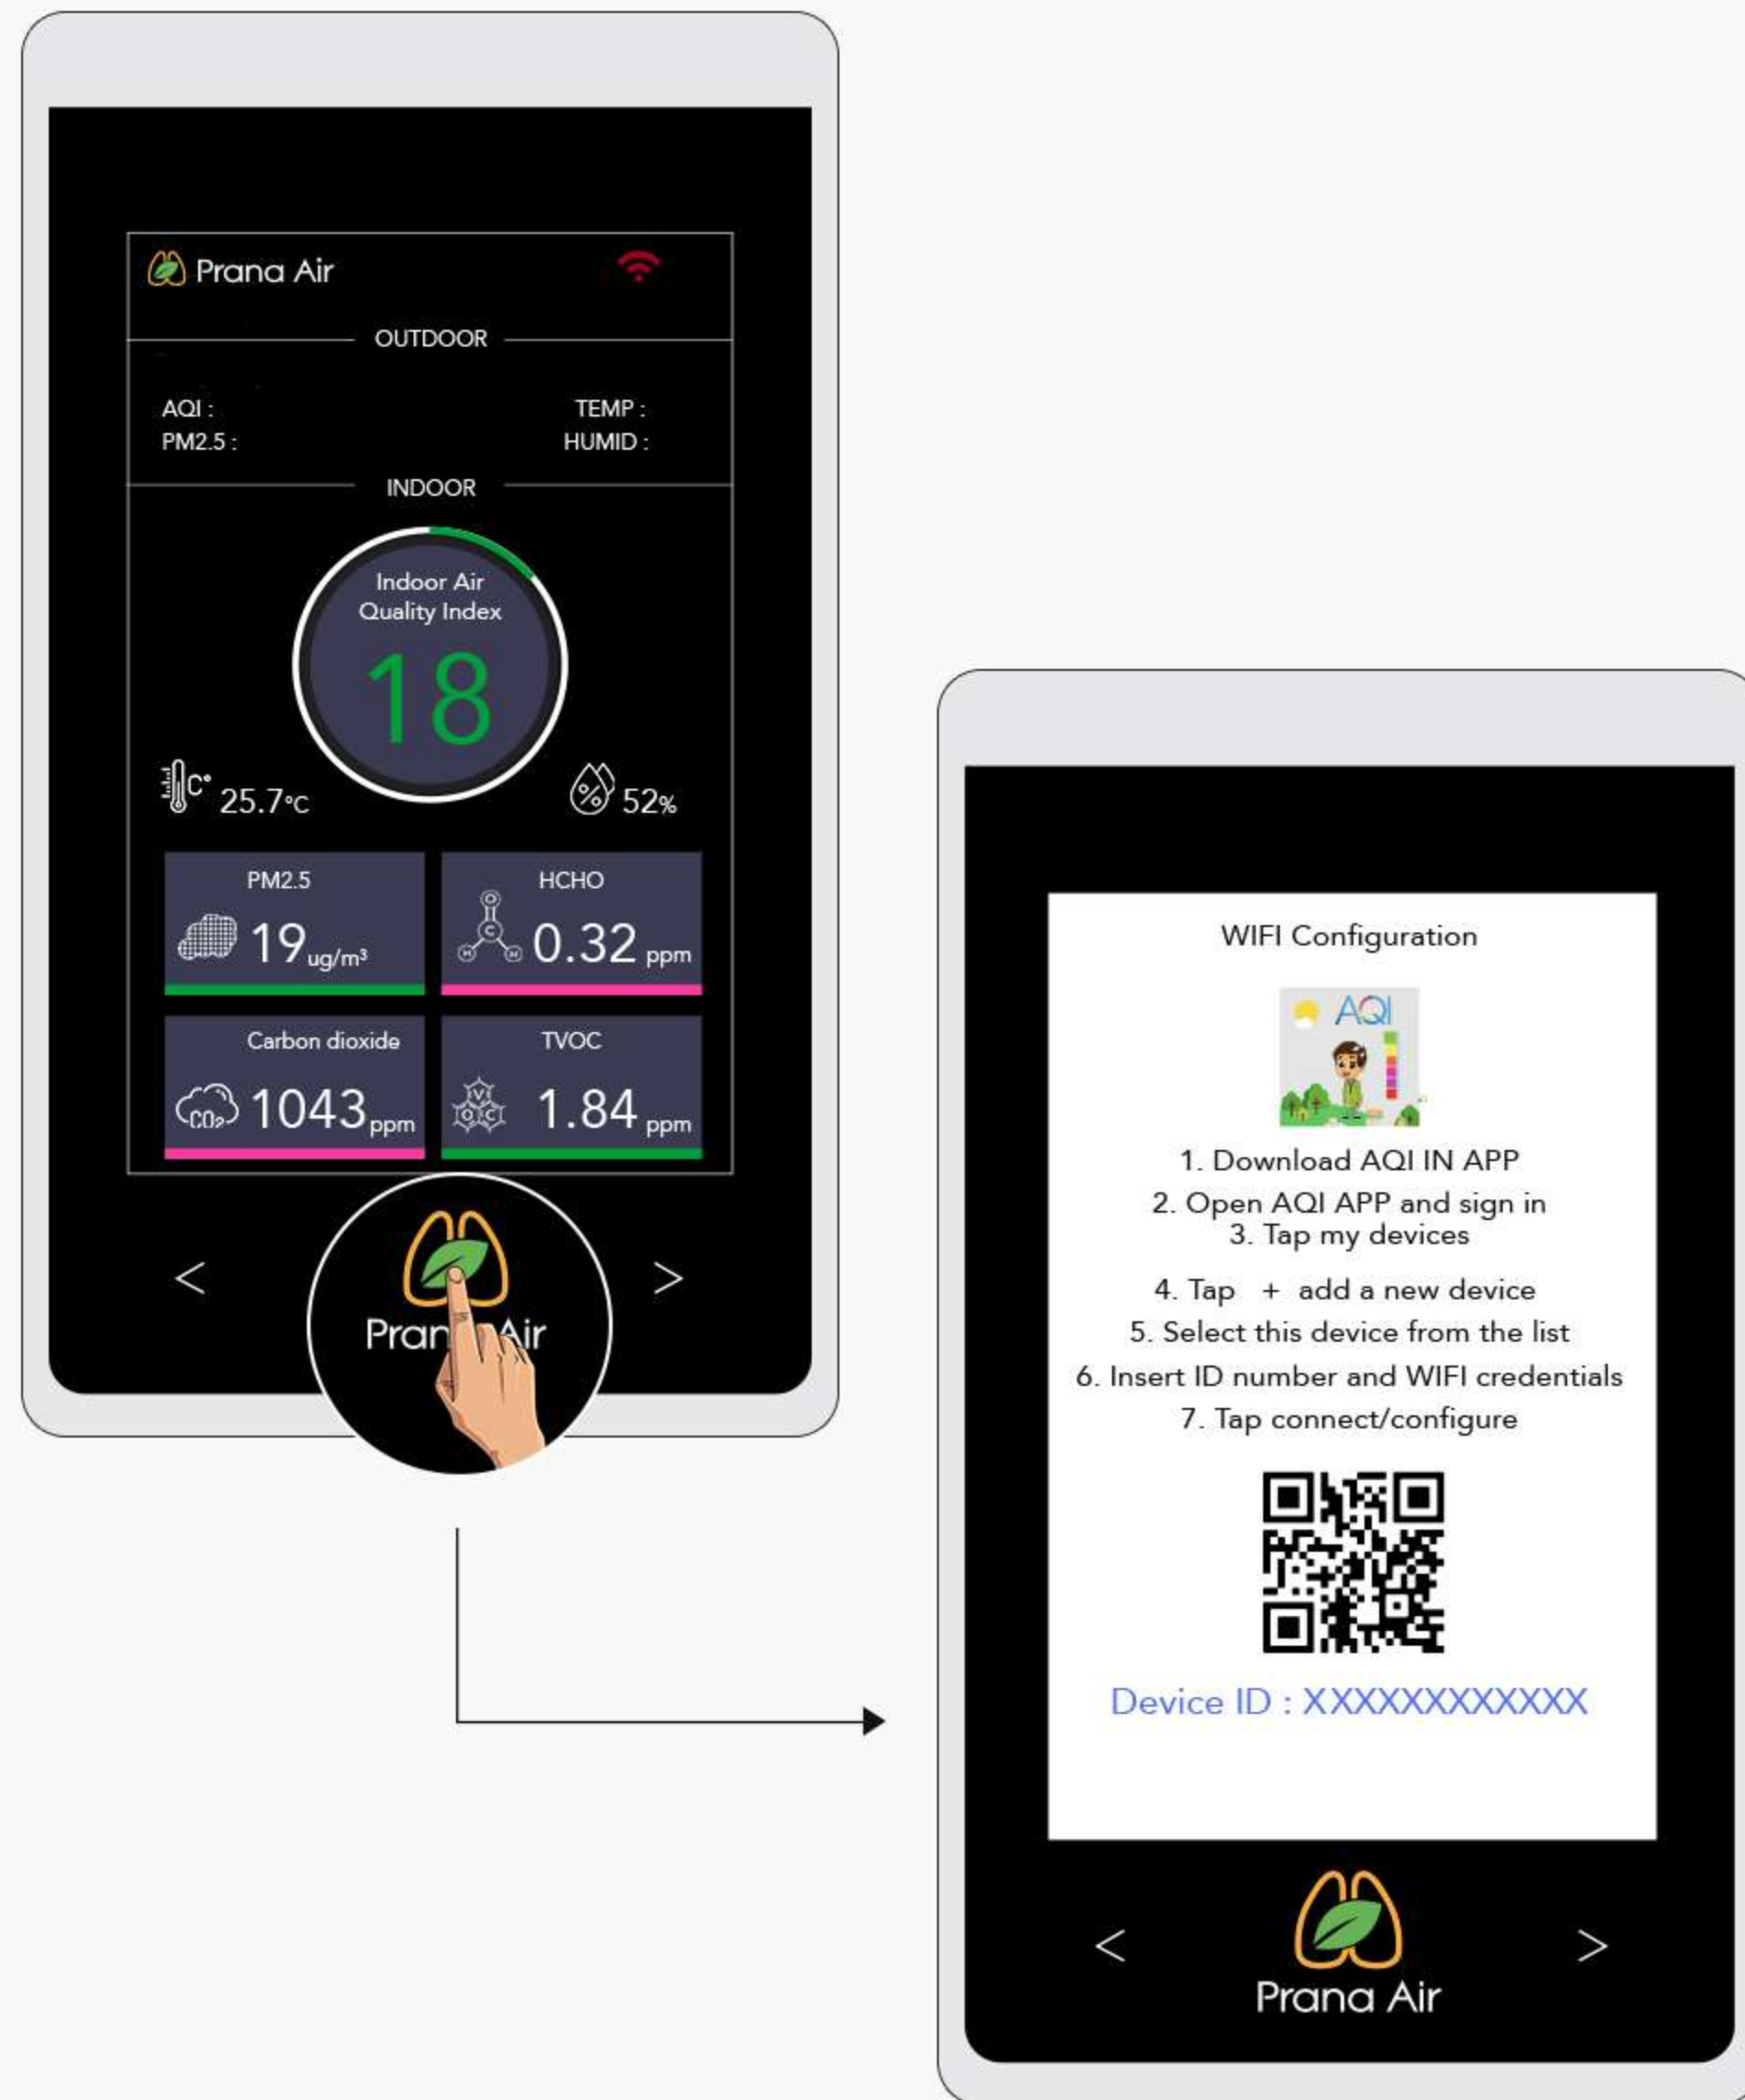

# Connecting the monitor to the WiFi

---

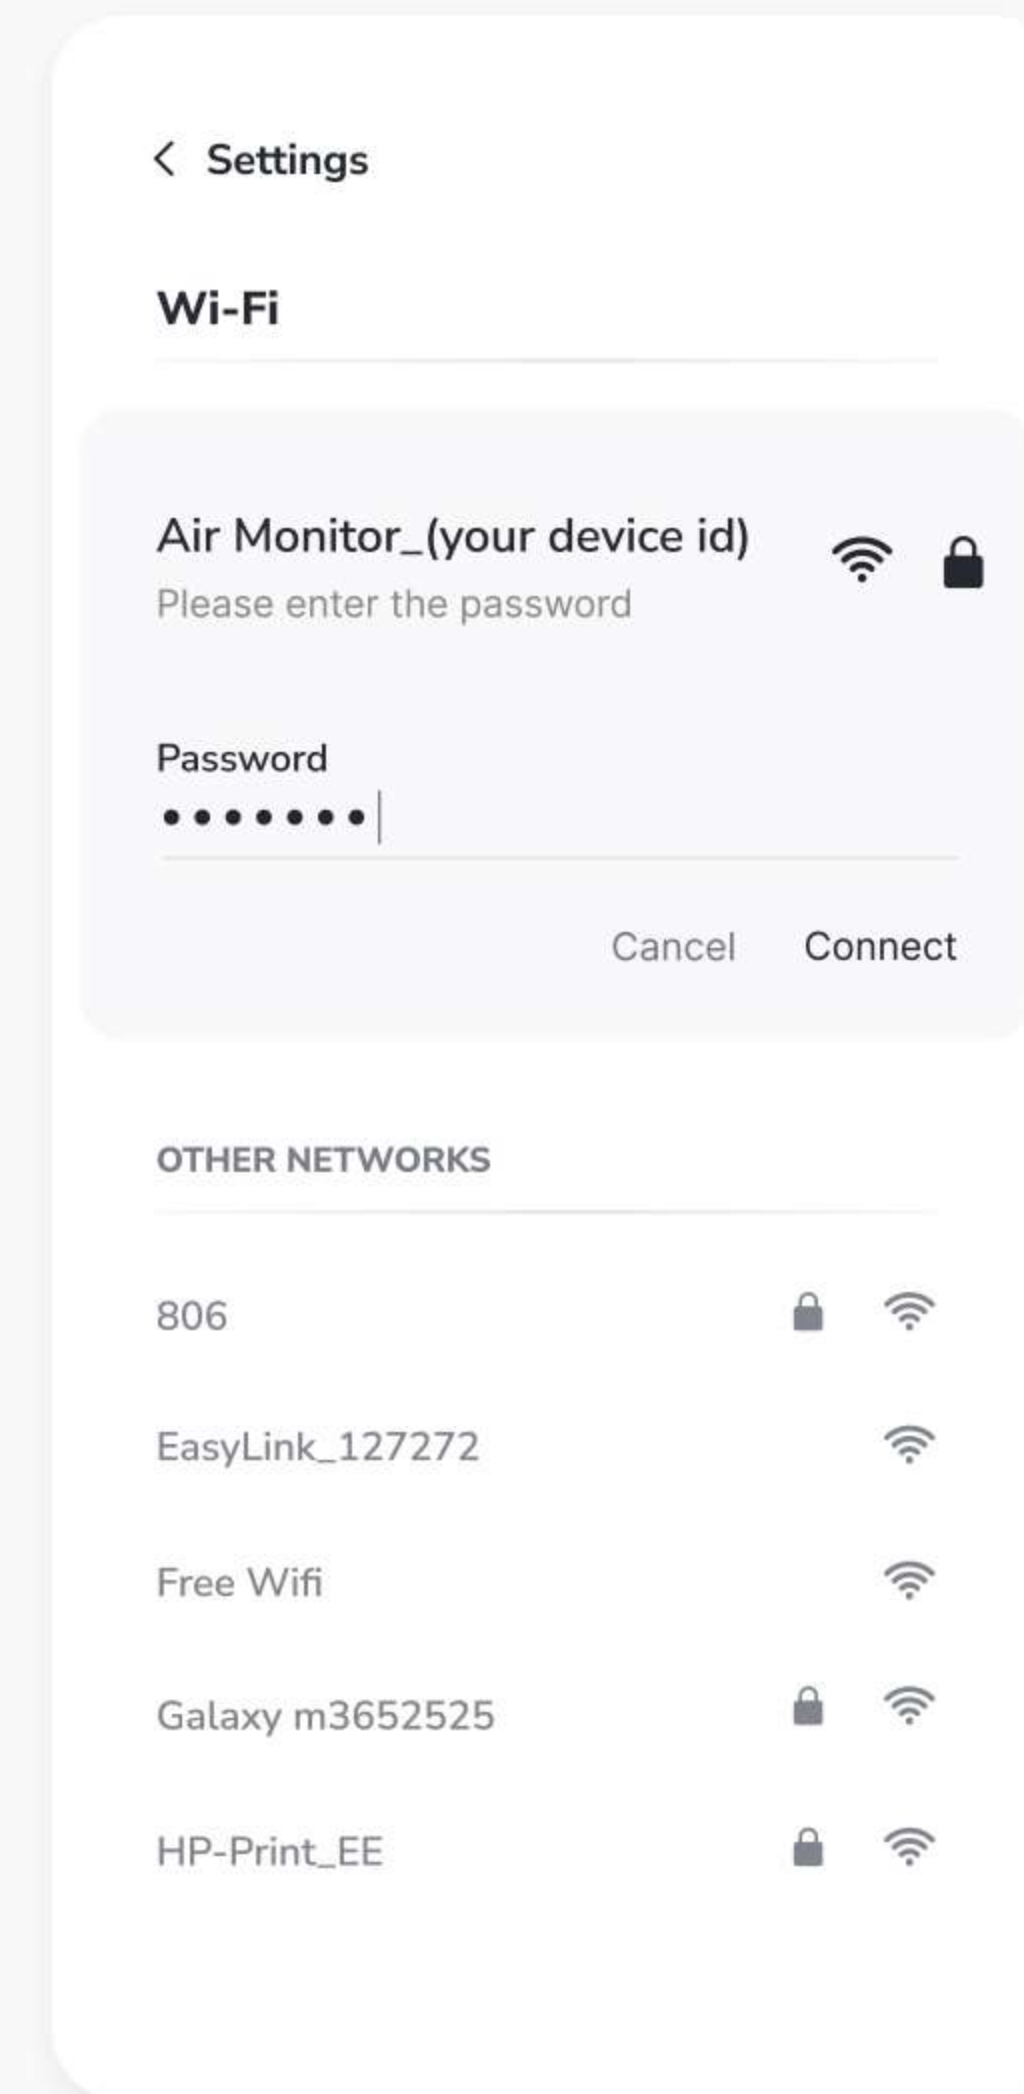

Connecting the device to a WiFi network will enable the user to view the monitored data remotely.

- 1 Long press the 'Prana Air' logo for 5-10 seconds (approx.). The 'WIFI Configuration' screen will appear.

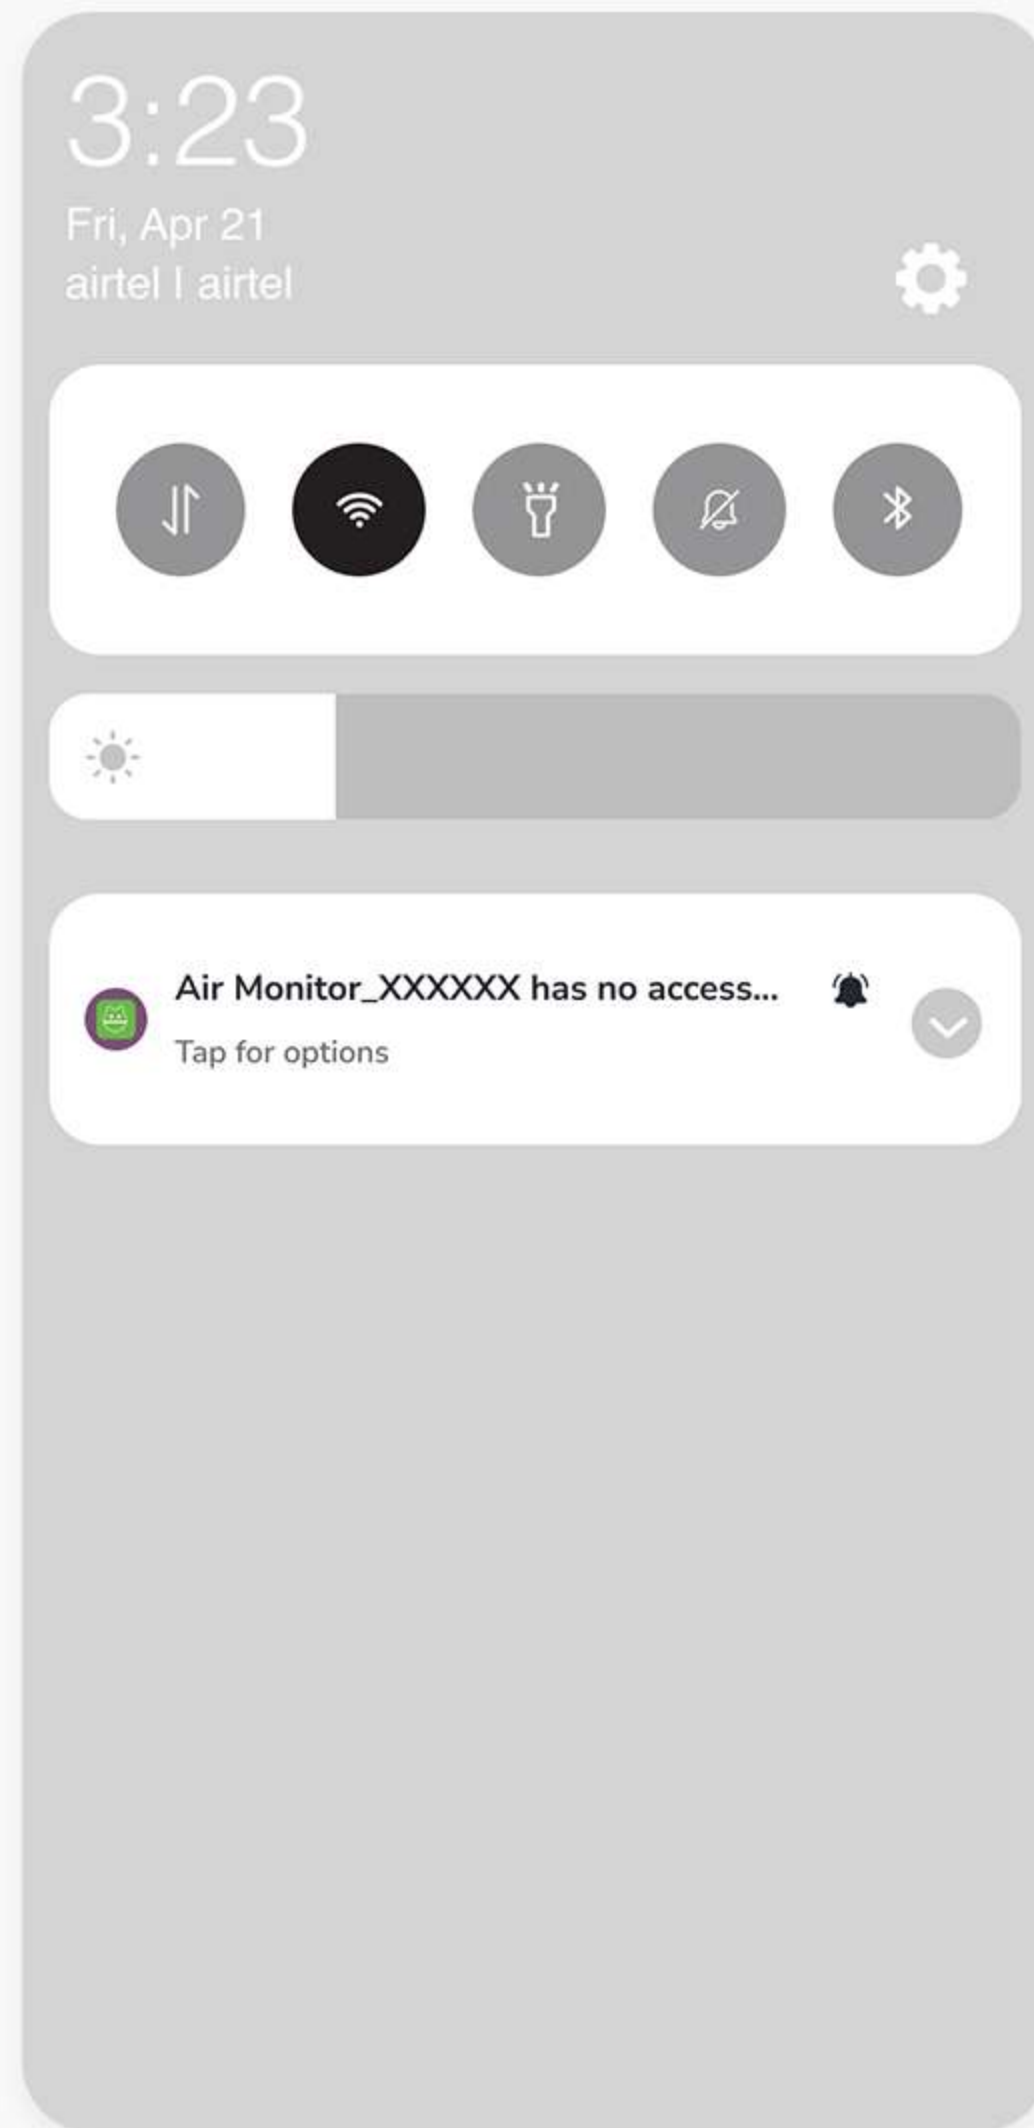

- 2 Now go to your mobile's WiFi settings and search for "Air Monitor\_(your device ID)". Connect to it using the password : "12345678".

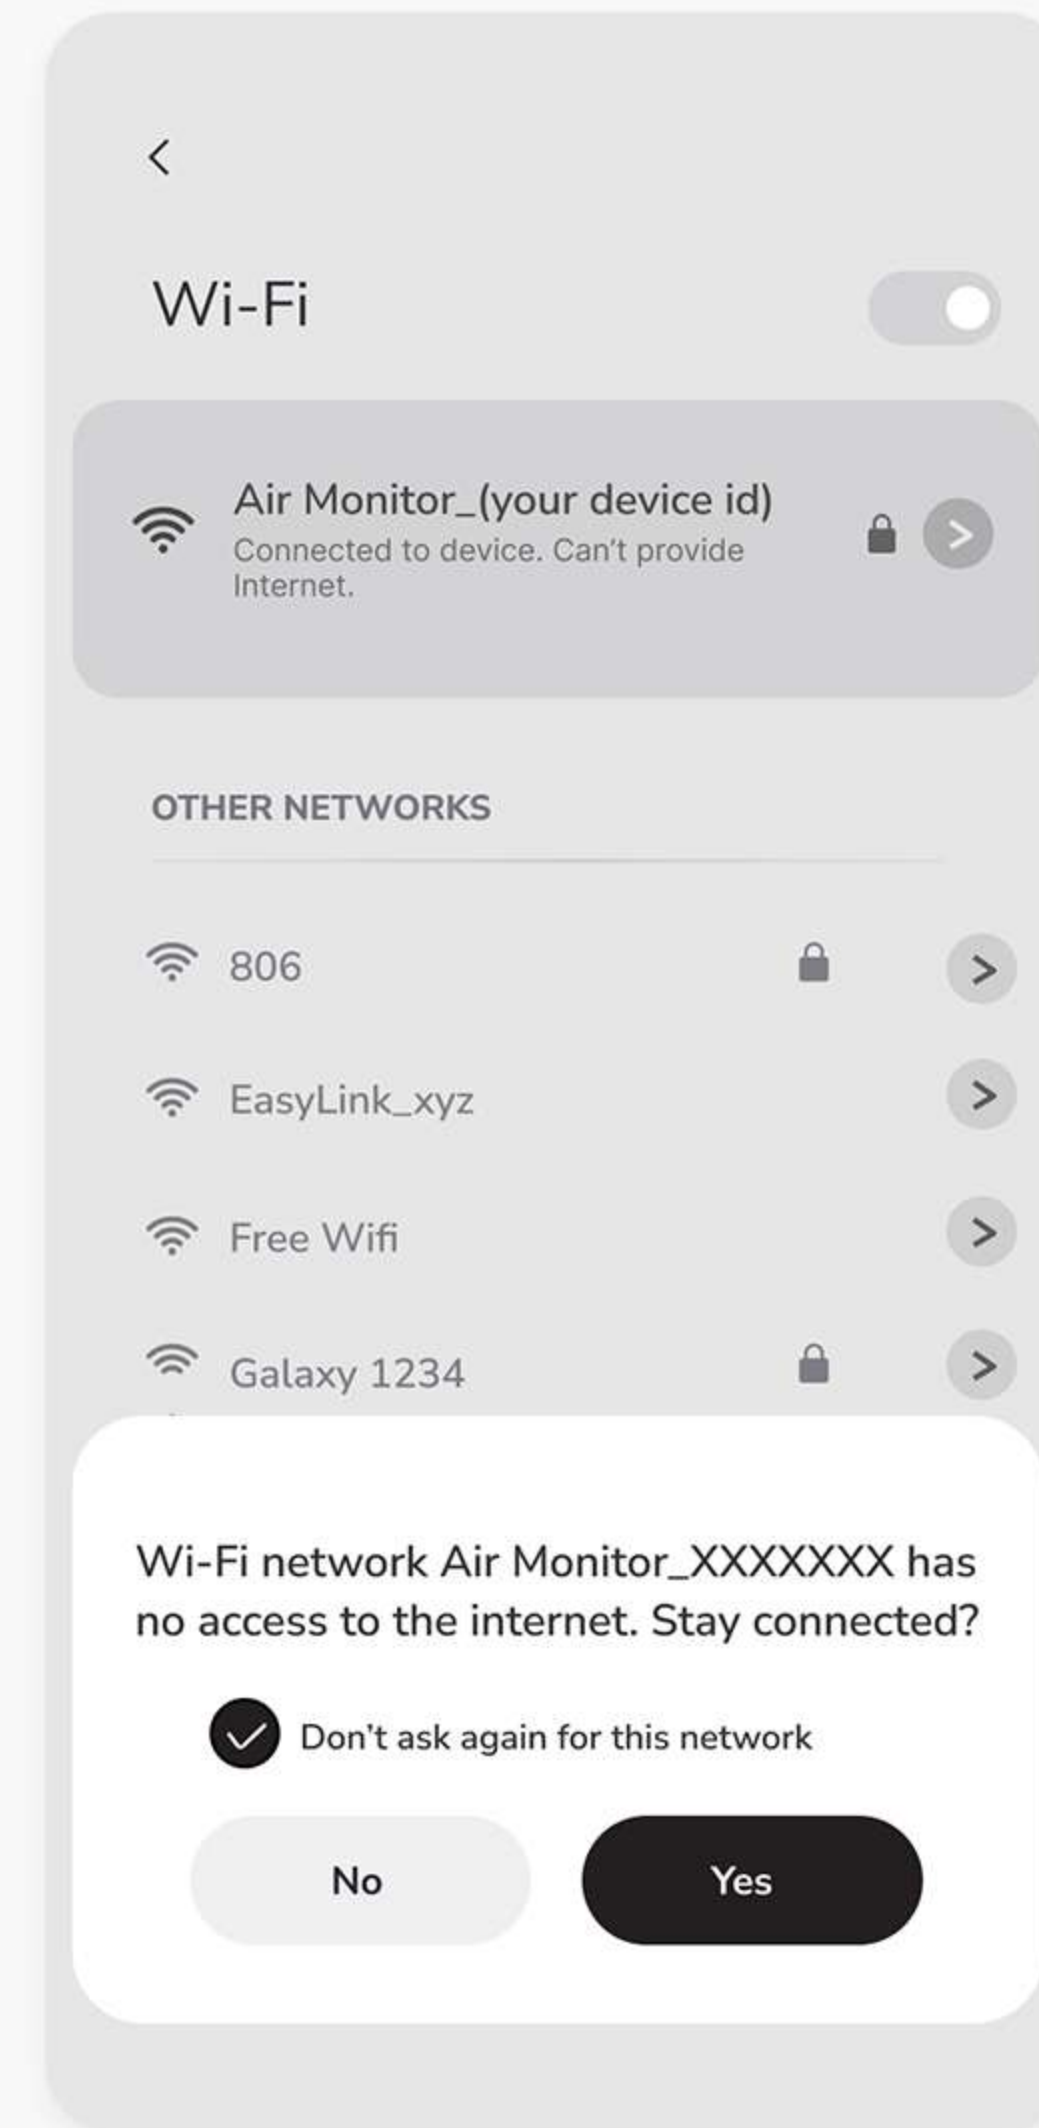

*NOTE : Do not follow the steps mentioned on the device screen for WIFI Configuration*

**3** A pop-up and/or a notification might appear.

**3.1** If the pop-up fails to appear, click on the notification instead.

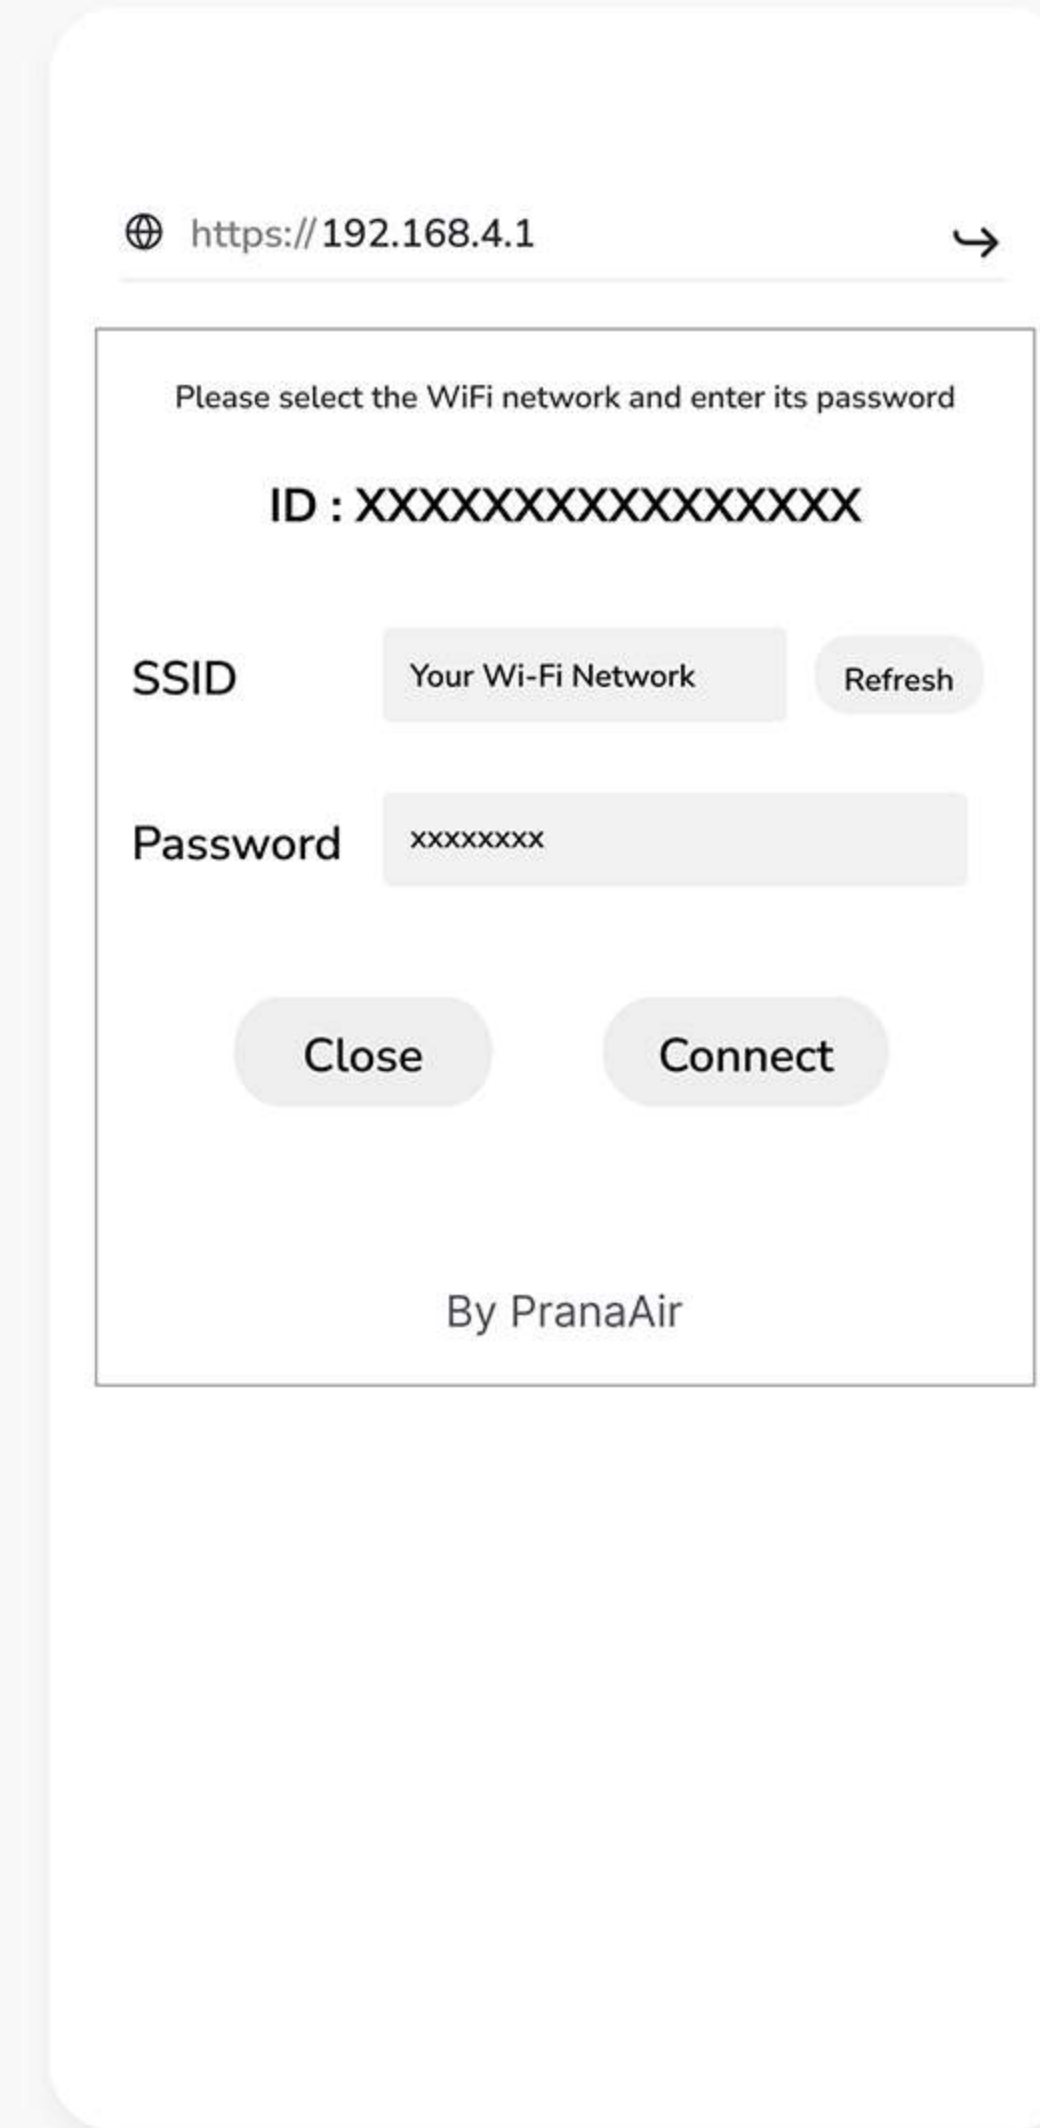

**3.2** Select the "Don't ask again" option, followed by clicking the "Yes" button.

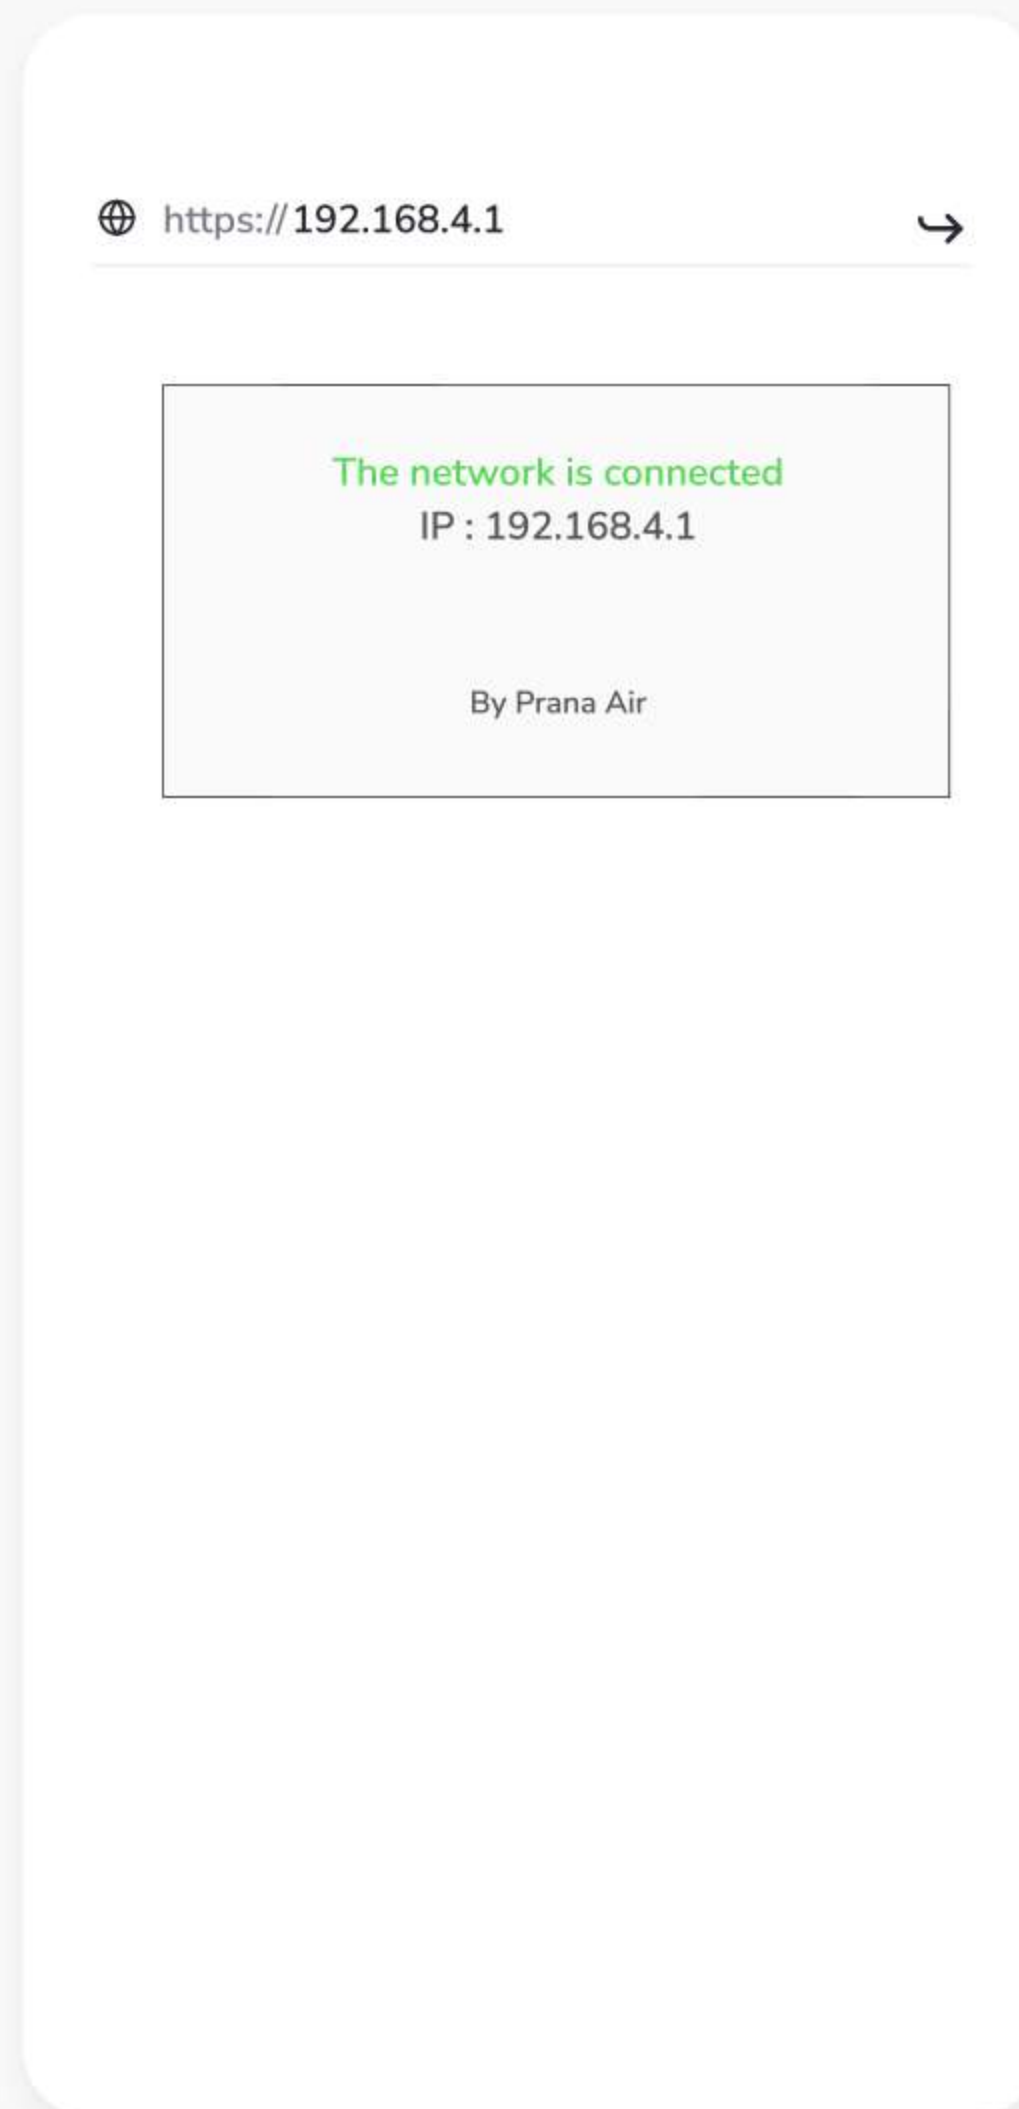

- 4 Once connected, open your internet browser and type "192.168.4.1" on your address bar.

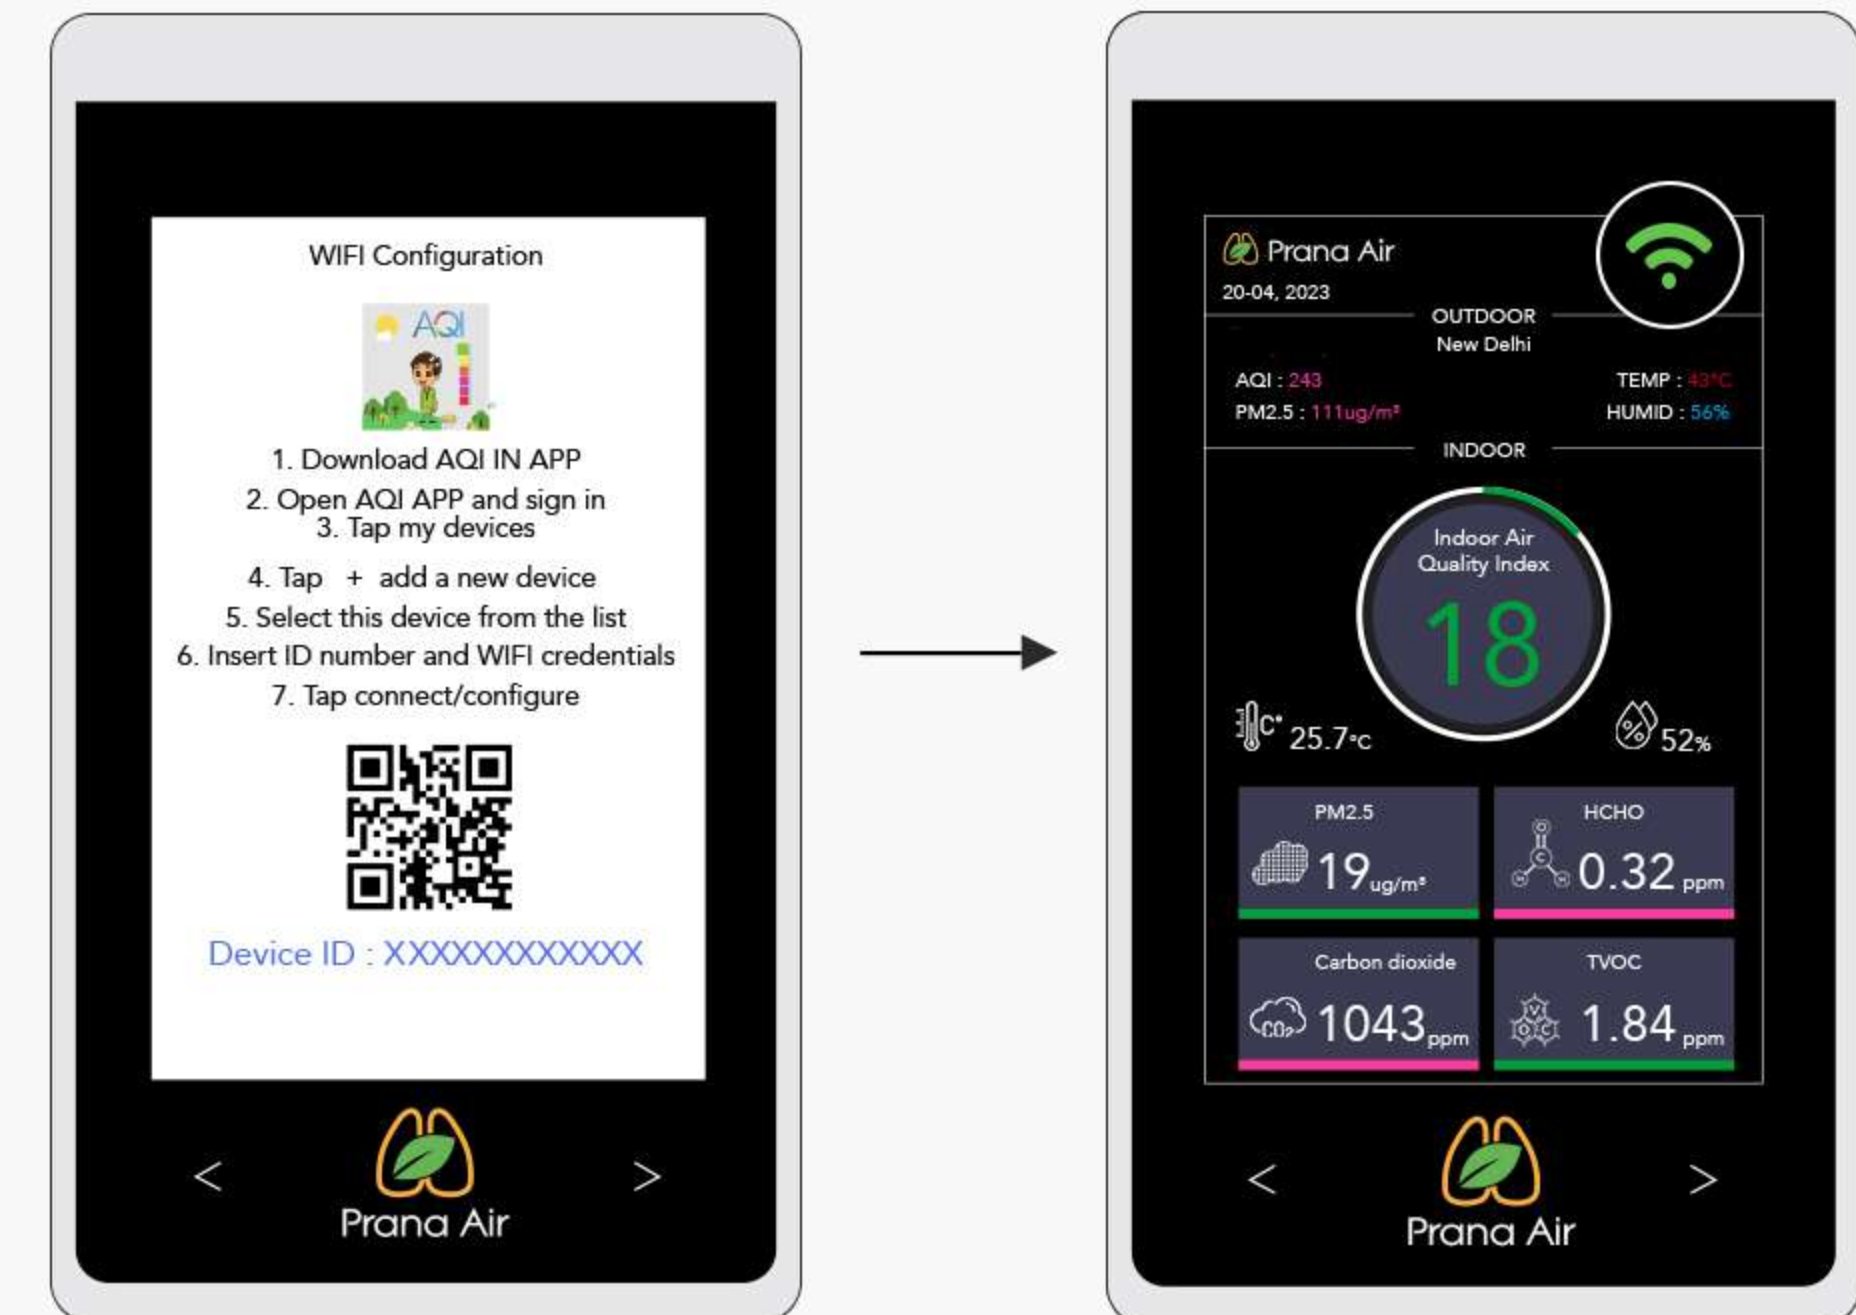

- 5 Now select your WiFi network on the SSID drop-down bar and enter the WiFi password. If you don't find the WiFi network, click on the refresh button.

- 6 Click on "**Connect**". A new pop-up window will appear that will display that the device is connecting. Wait till you see the message "**The network is connected**".

- 7 Once the WiFi is connected, the monitor screen will redirect to the home screen.

#### NOTE :

- The "**WiFi icon**" on the monitor will turn green after the WiFi network is connected.

- If the WiFi is not connected, the device will store the data but without timestamp.

# Connecting the monitor to the AQI App

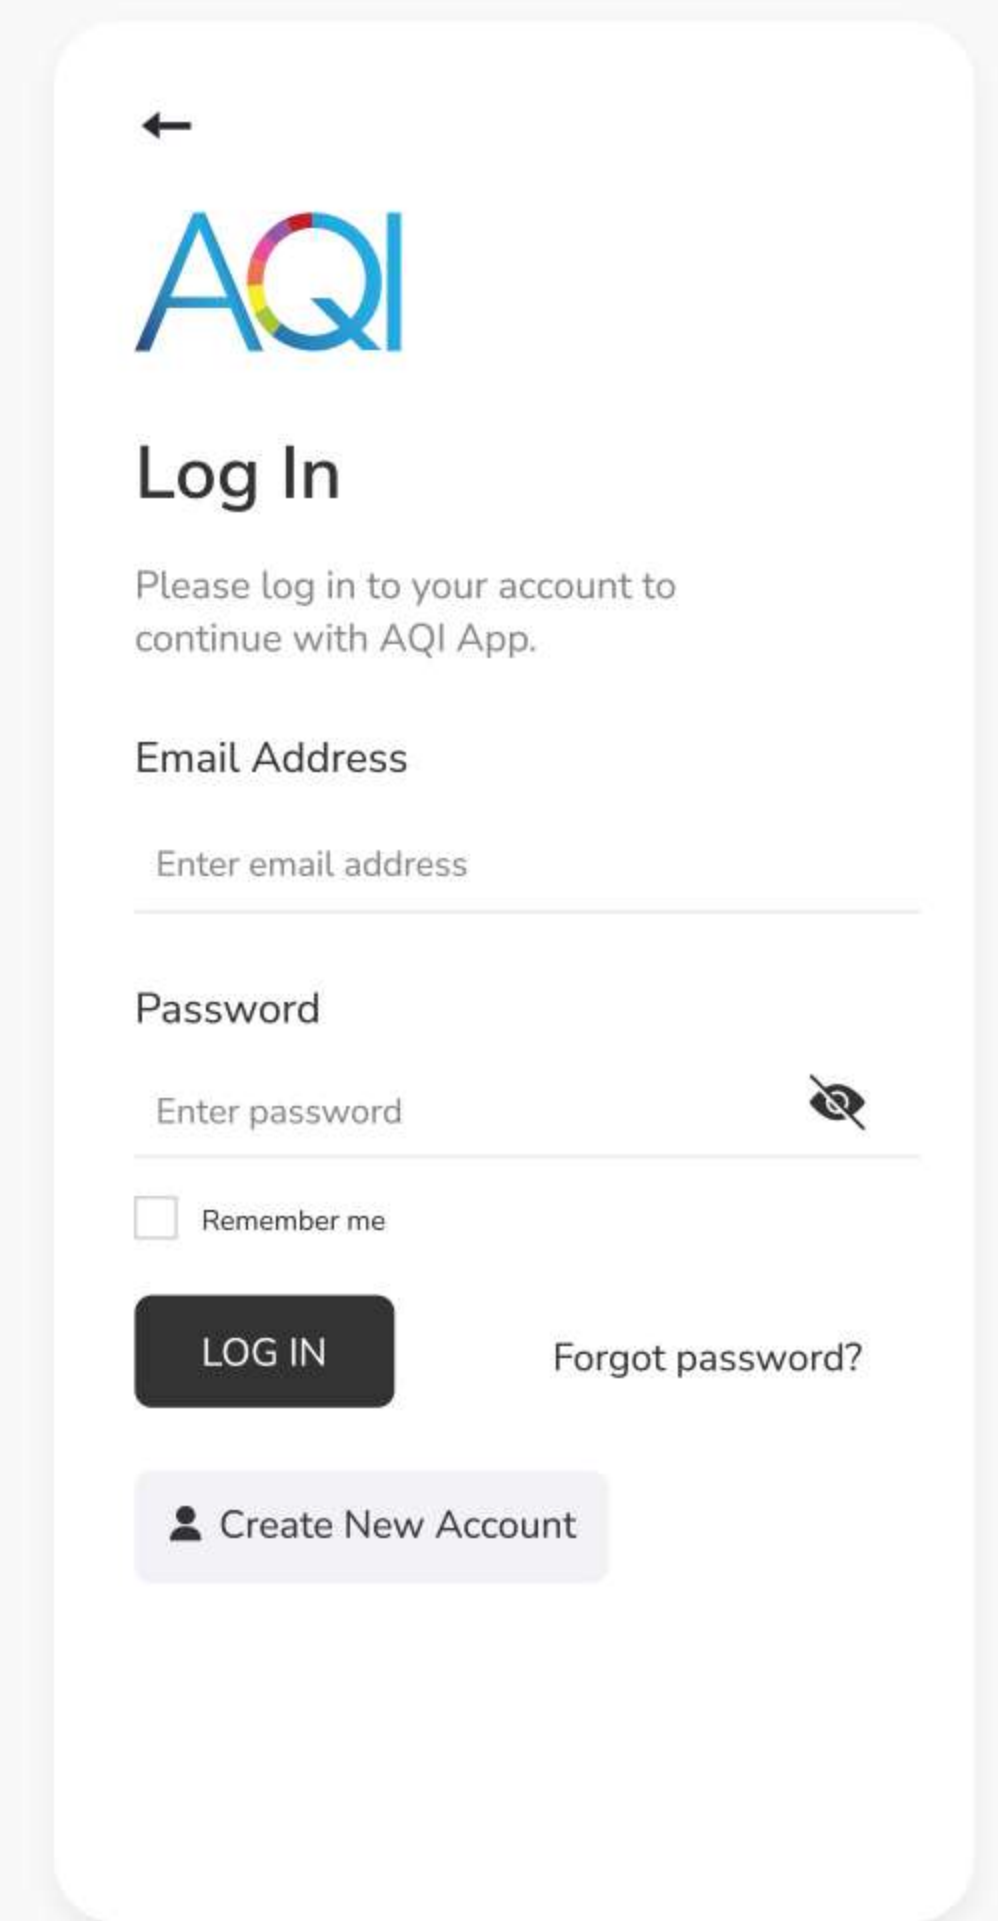

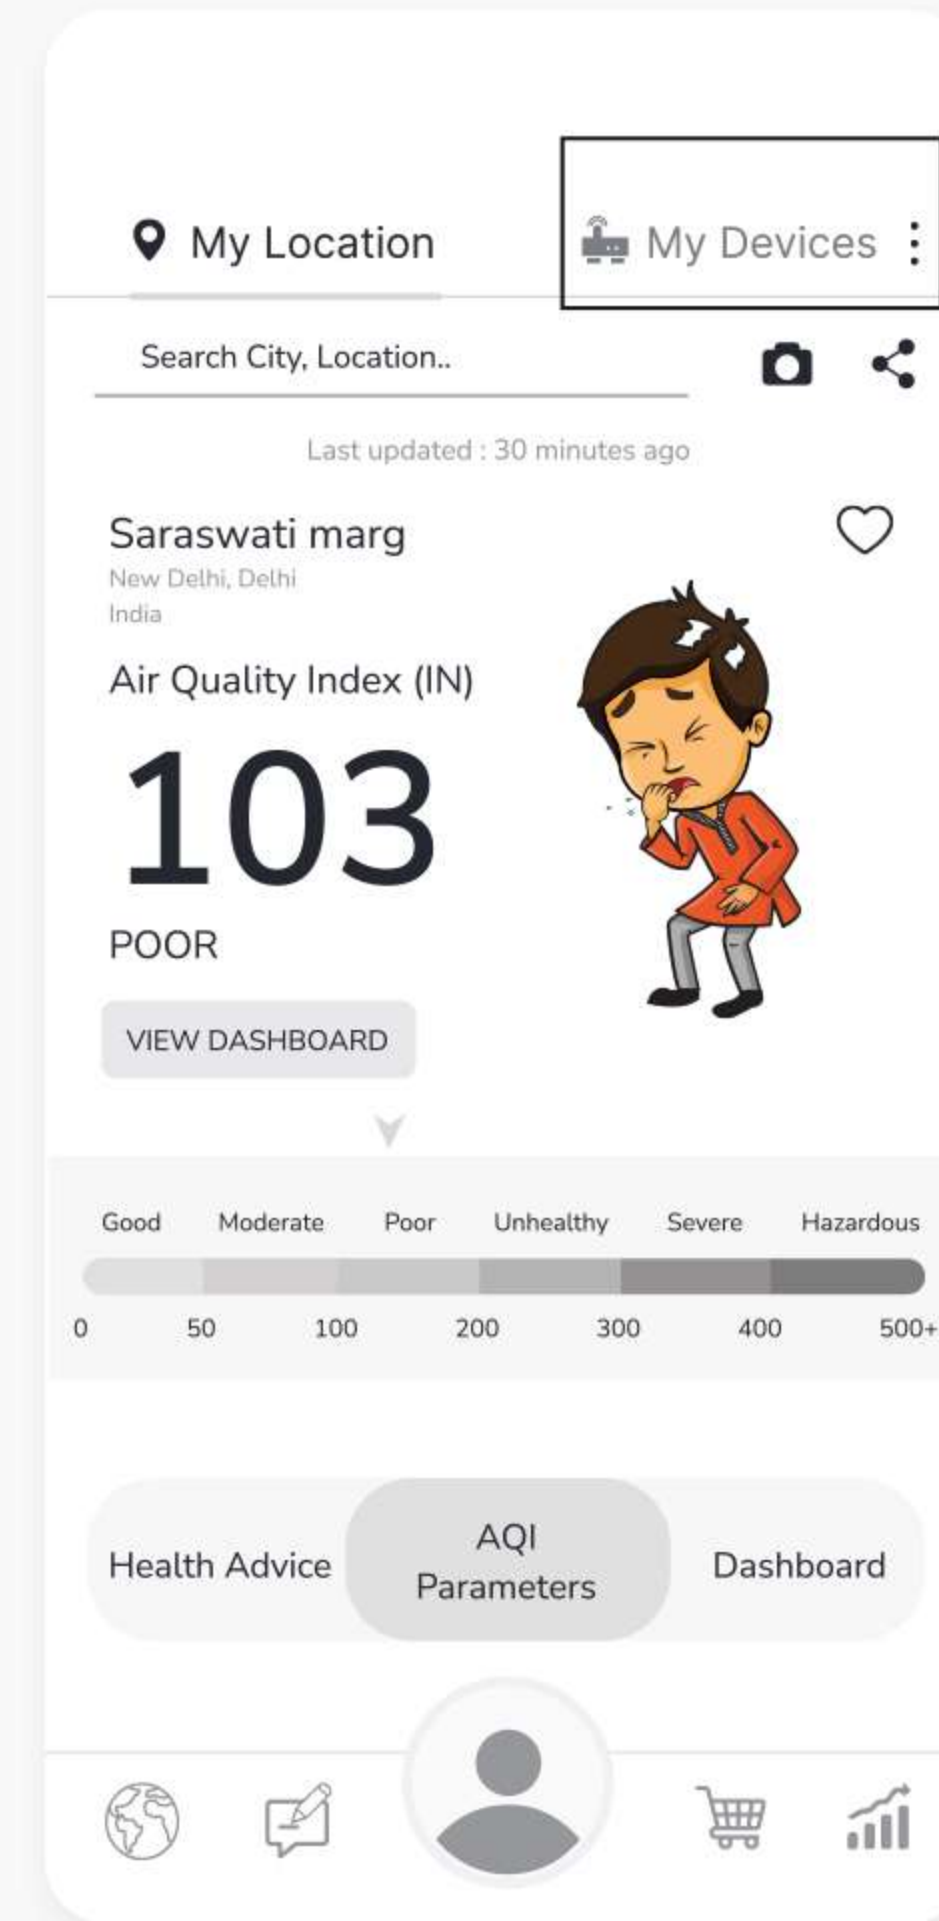

---

The AQI app serves as a platform for easy access to the data collected by the device.

**1** Install the AQI App and open it. Allow all the permissions accordingly.

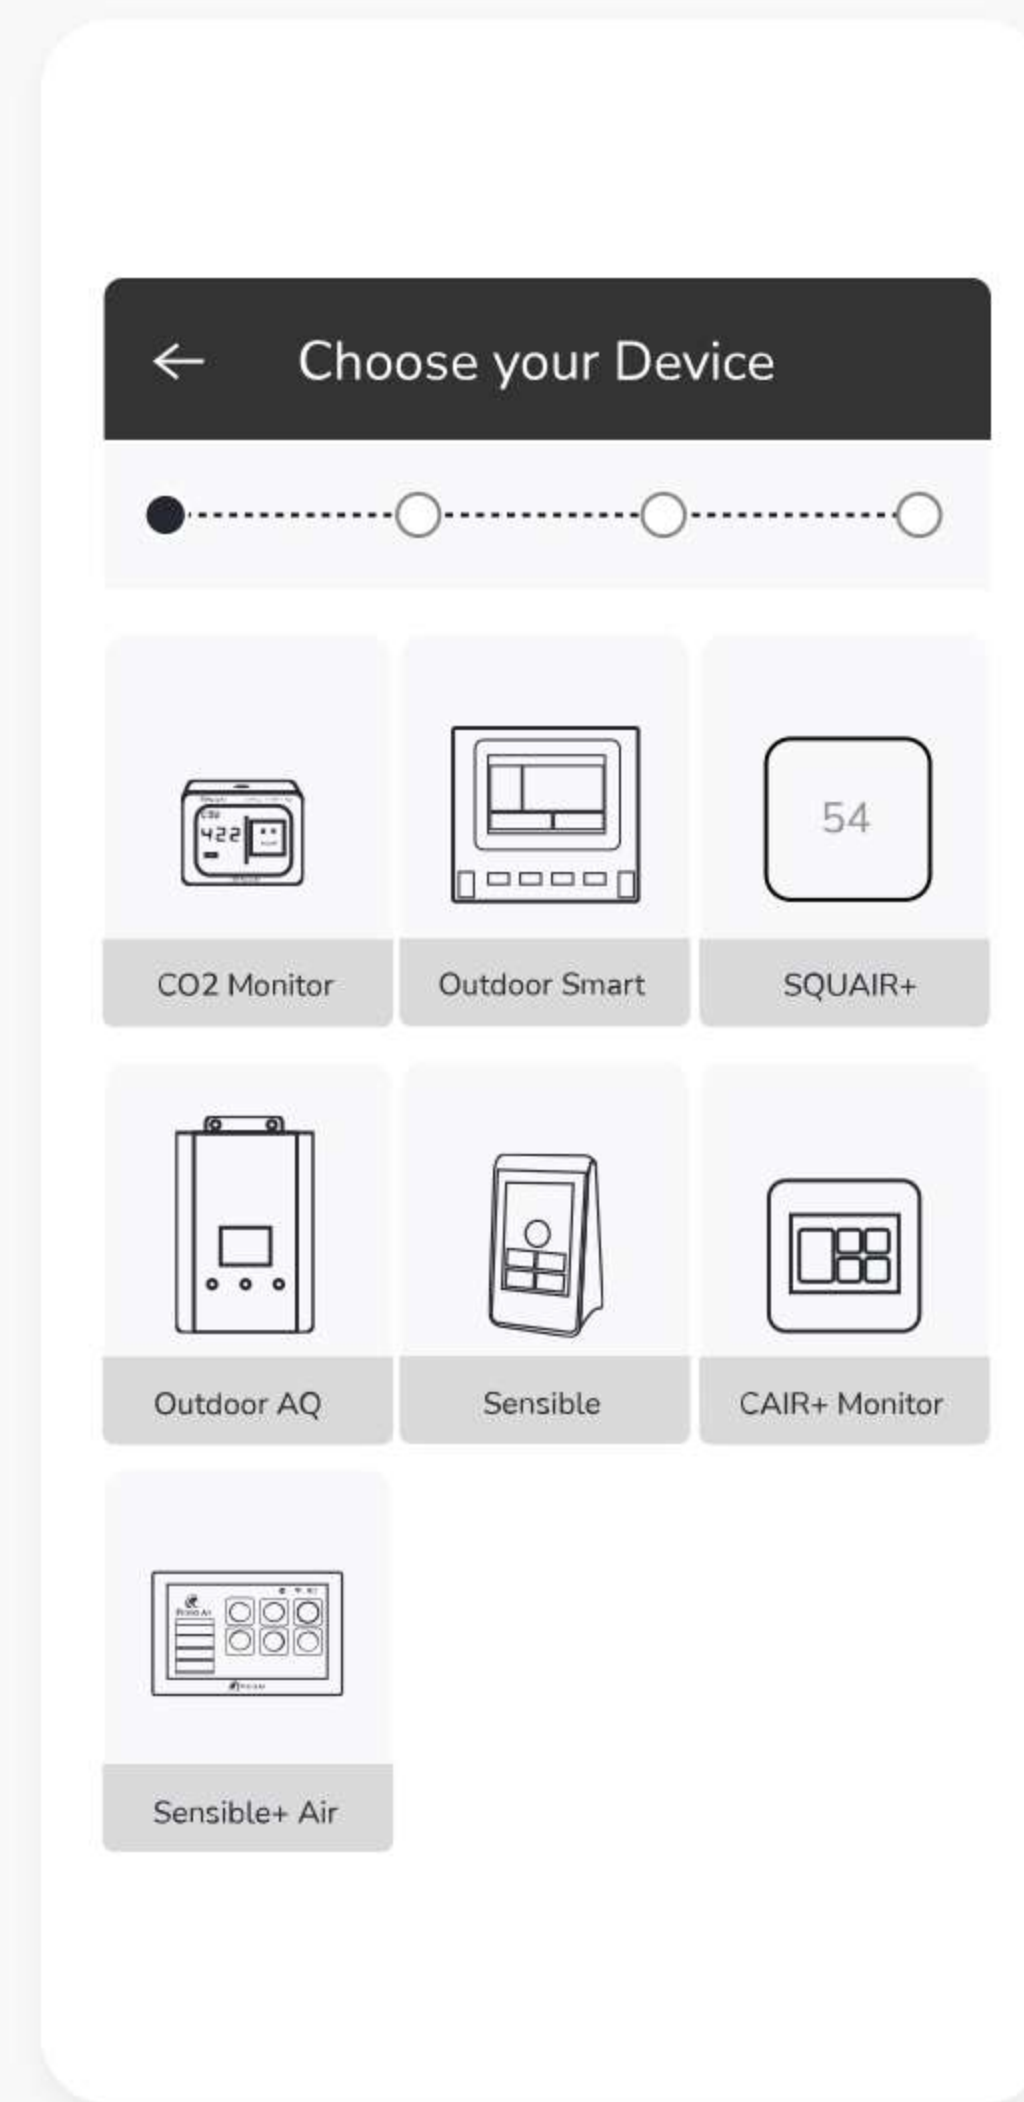

**2** Click on "My Devices" to Sign up for creating a new account or Log in if you already have one. For Login/ Sign up procedure, refer to Page 18.

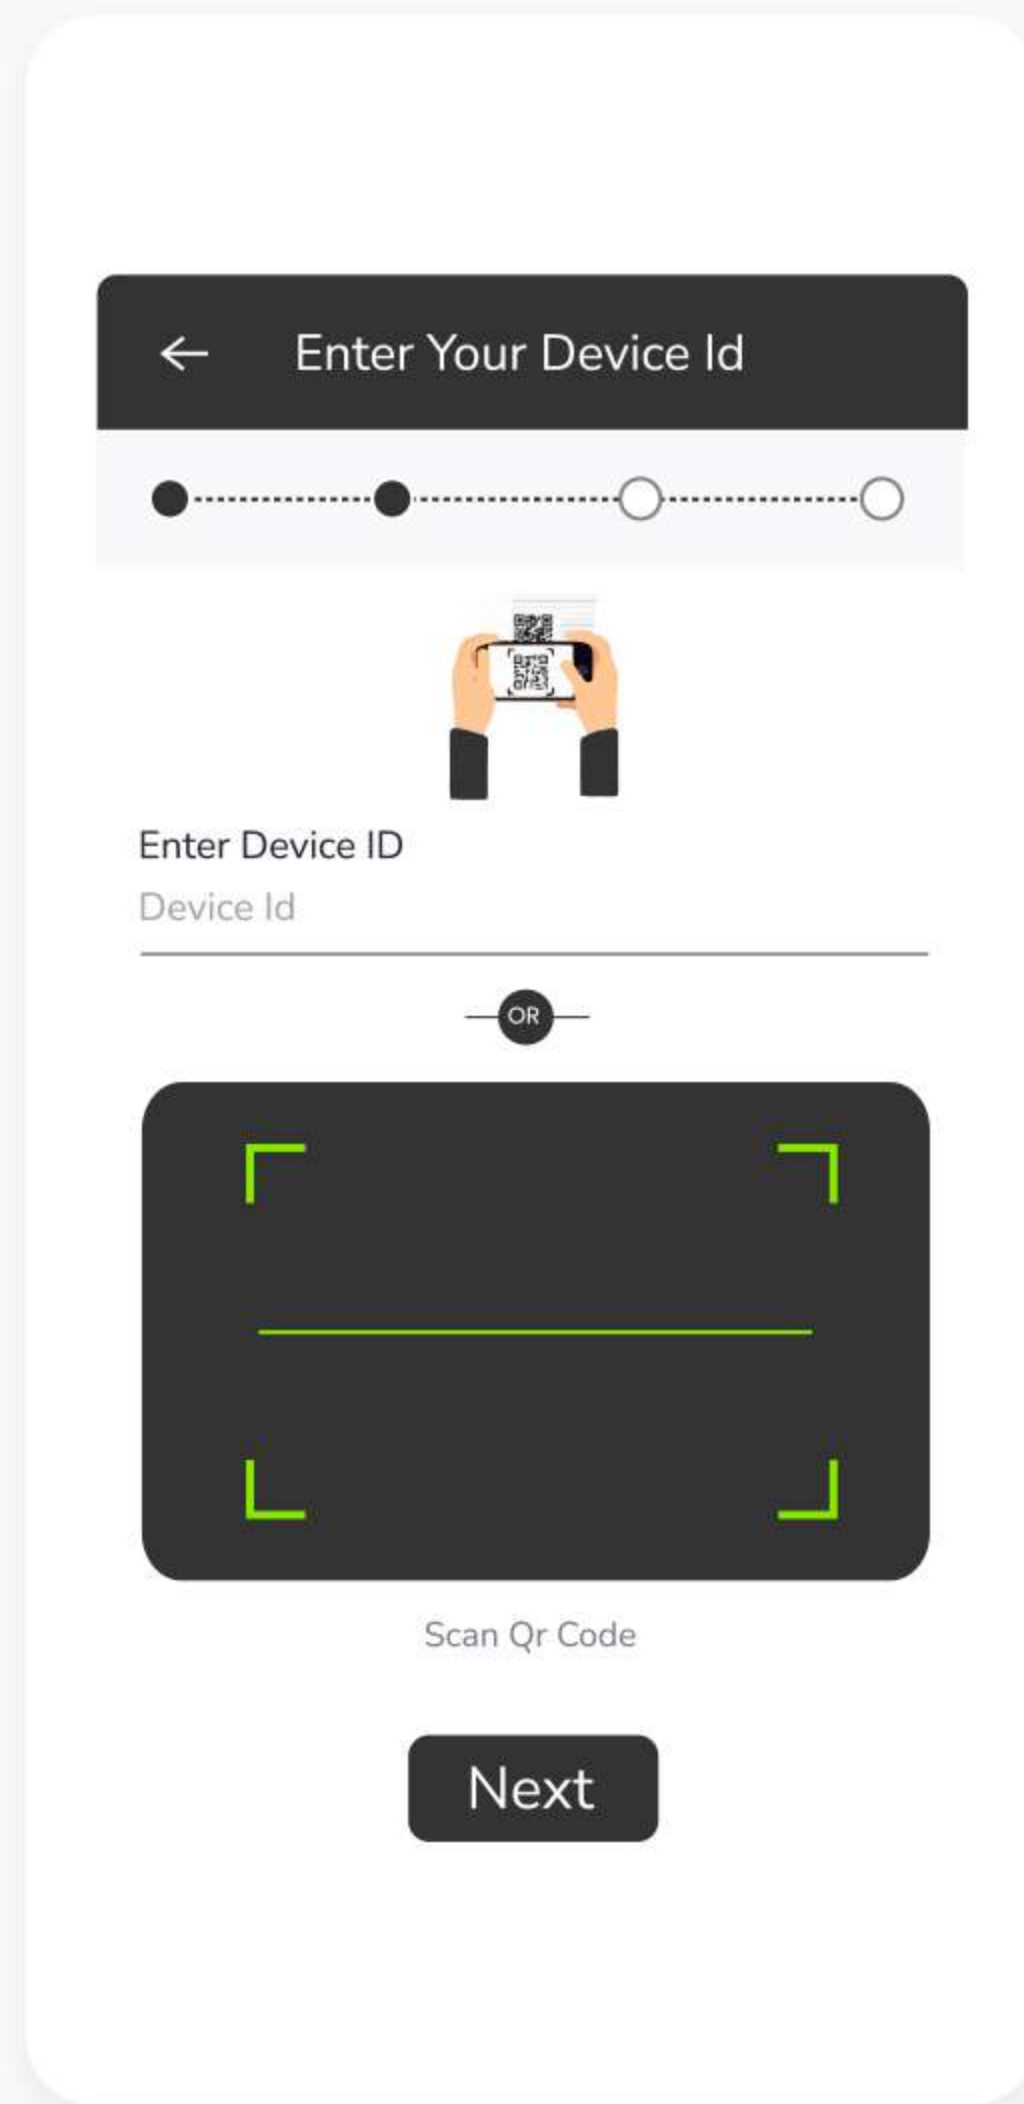

- 3 Once logged in, Go to "My Devices" and then click on the "Add" button.

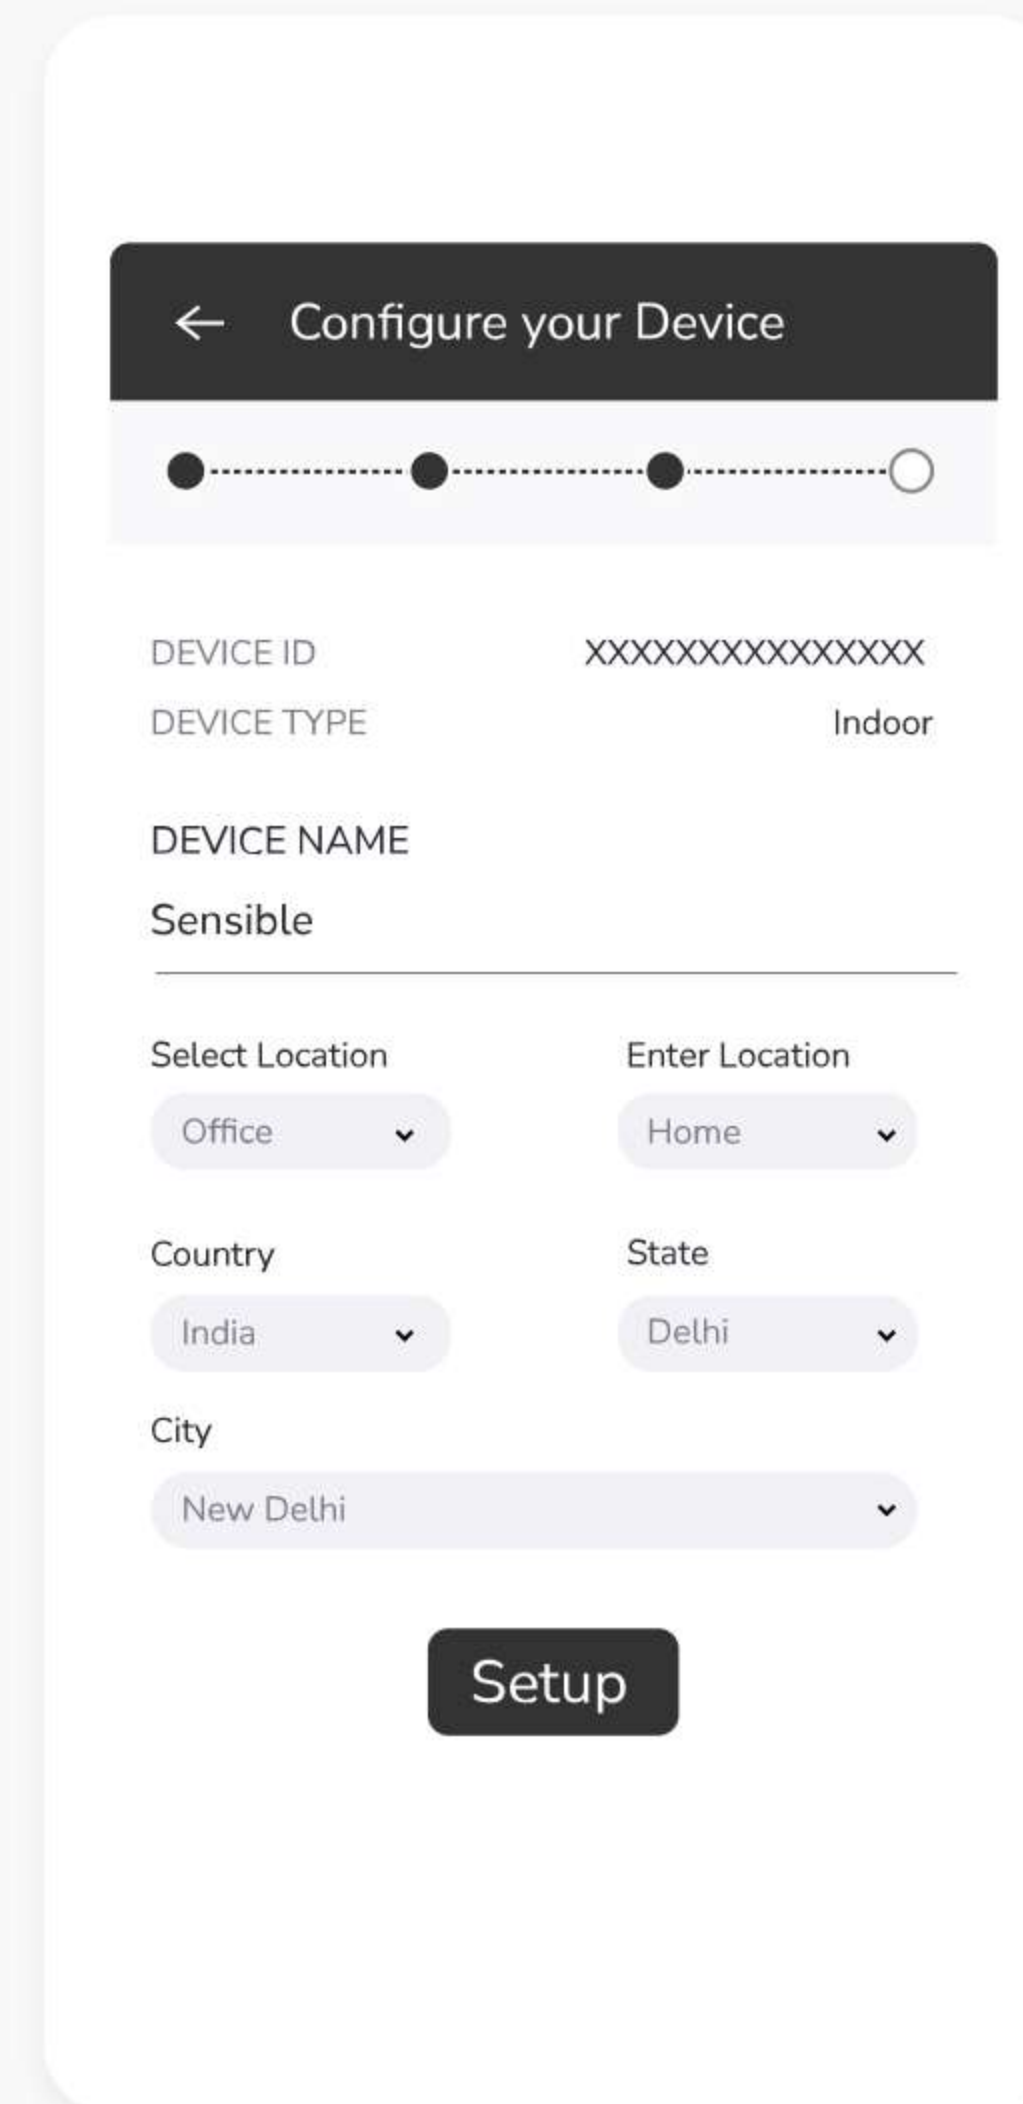

- 4 Then select "Sensible" under the 'Choose your Device' section.

- 5 Enter the device id or Scan the QR code displayed on the device.

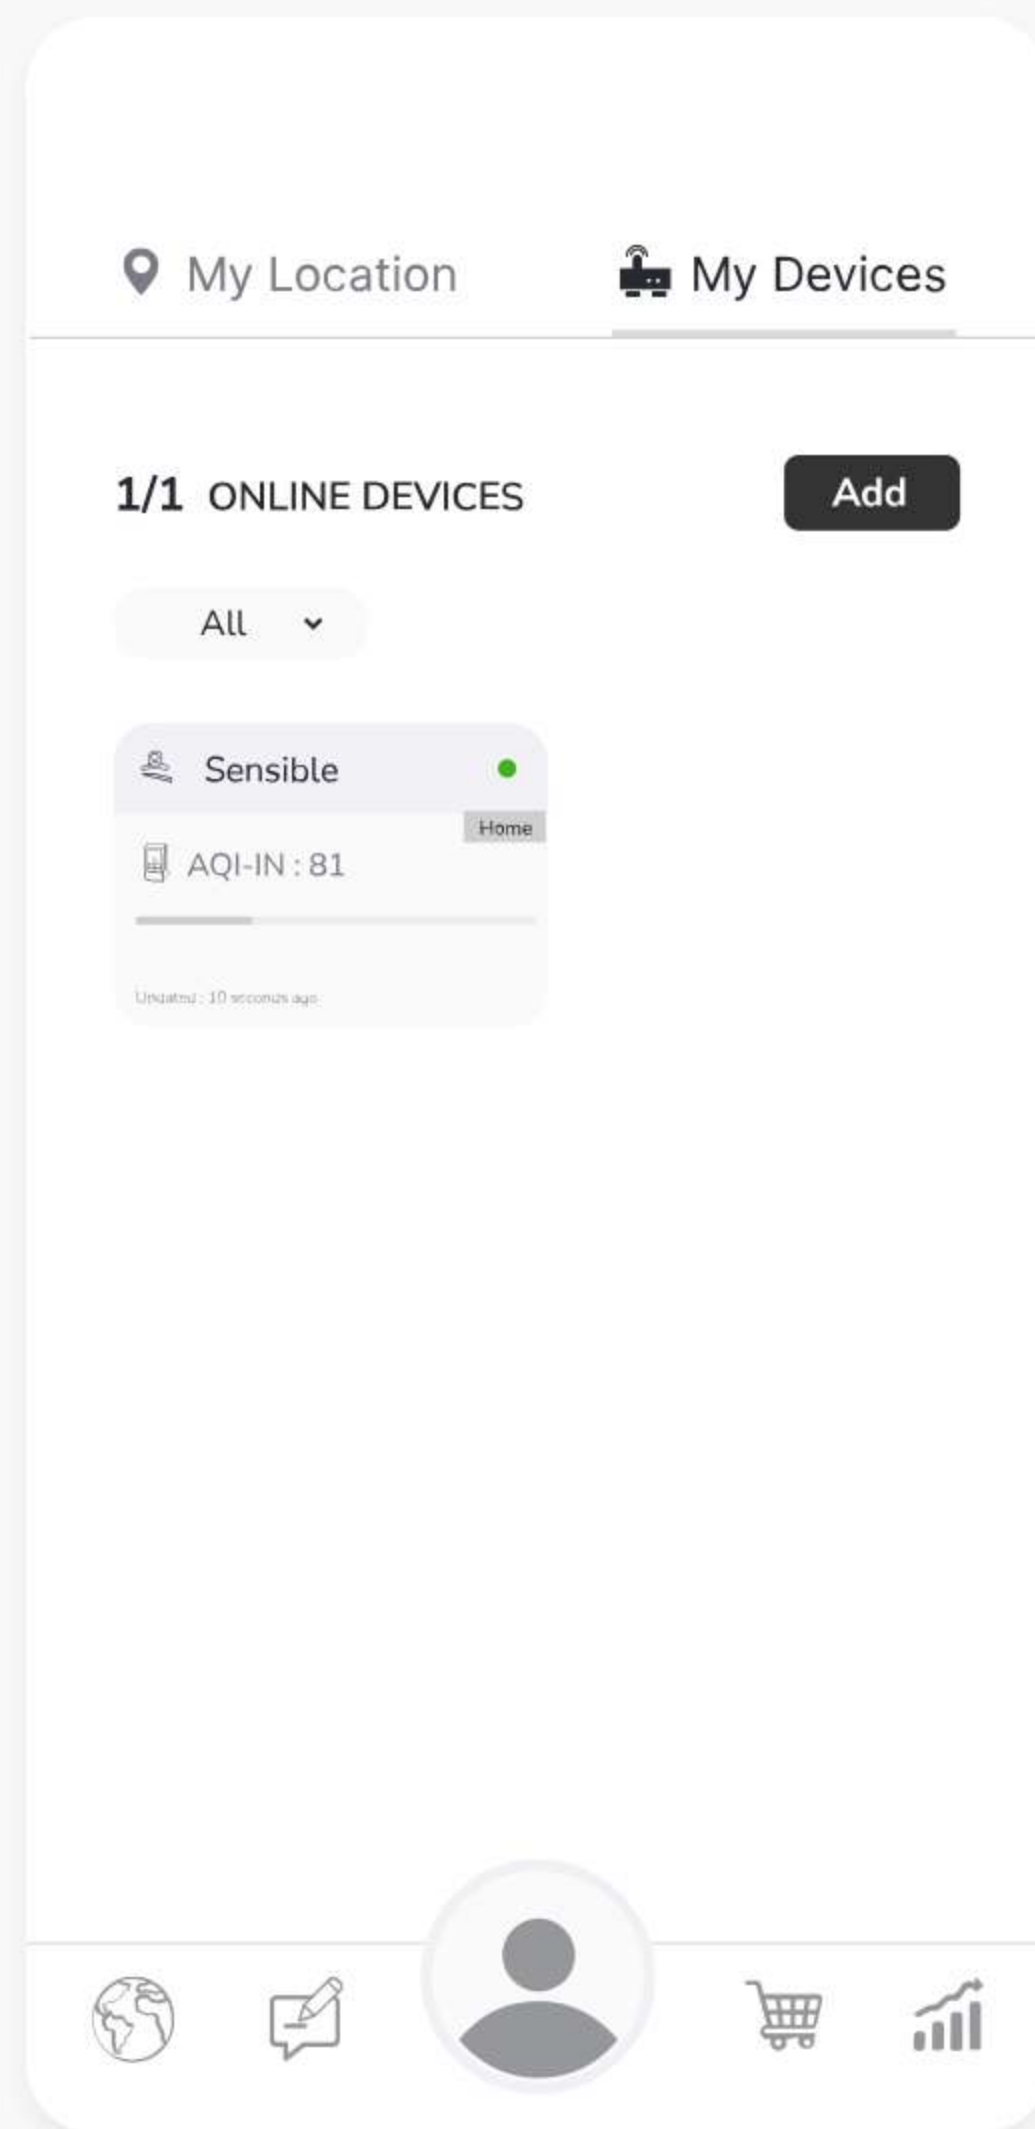

- 6 Add all the necessary details and then click on the "Setup" button.

**7** Your device is added successfully. You can see your added device under the **"My Devices"** section of the AQI App. Check the device's online status after 5 minutes. If offline, check the power source, and WiFi connection.

**NOTE:**

Please ensure the device is successfully added to the AQI app and has established an online connection.

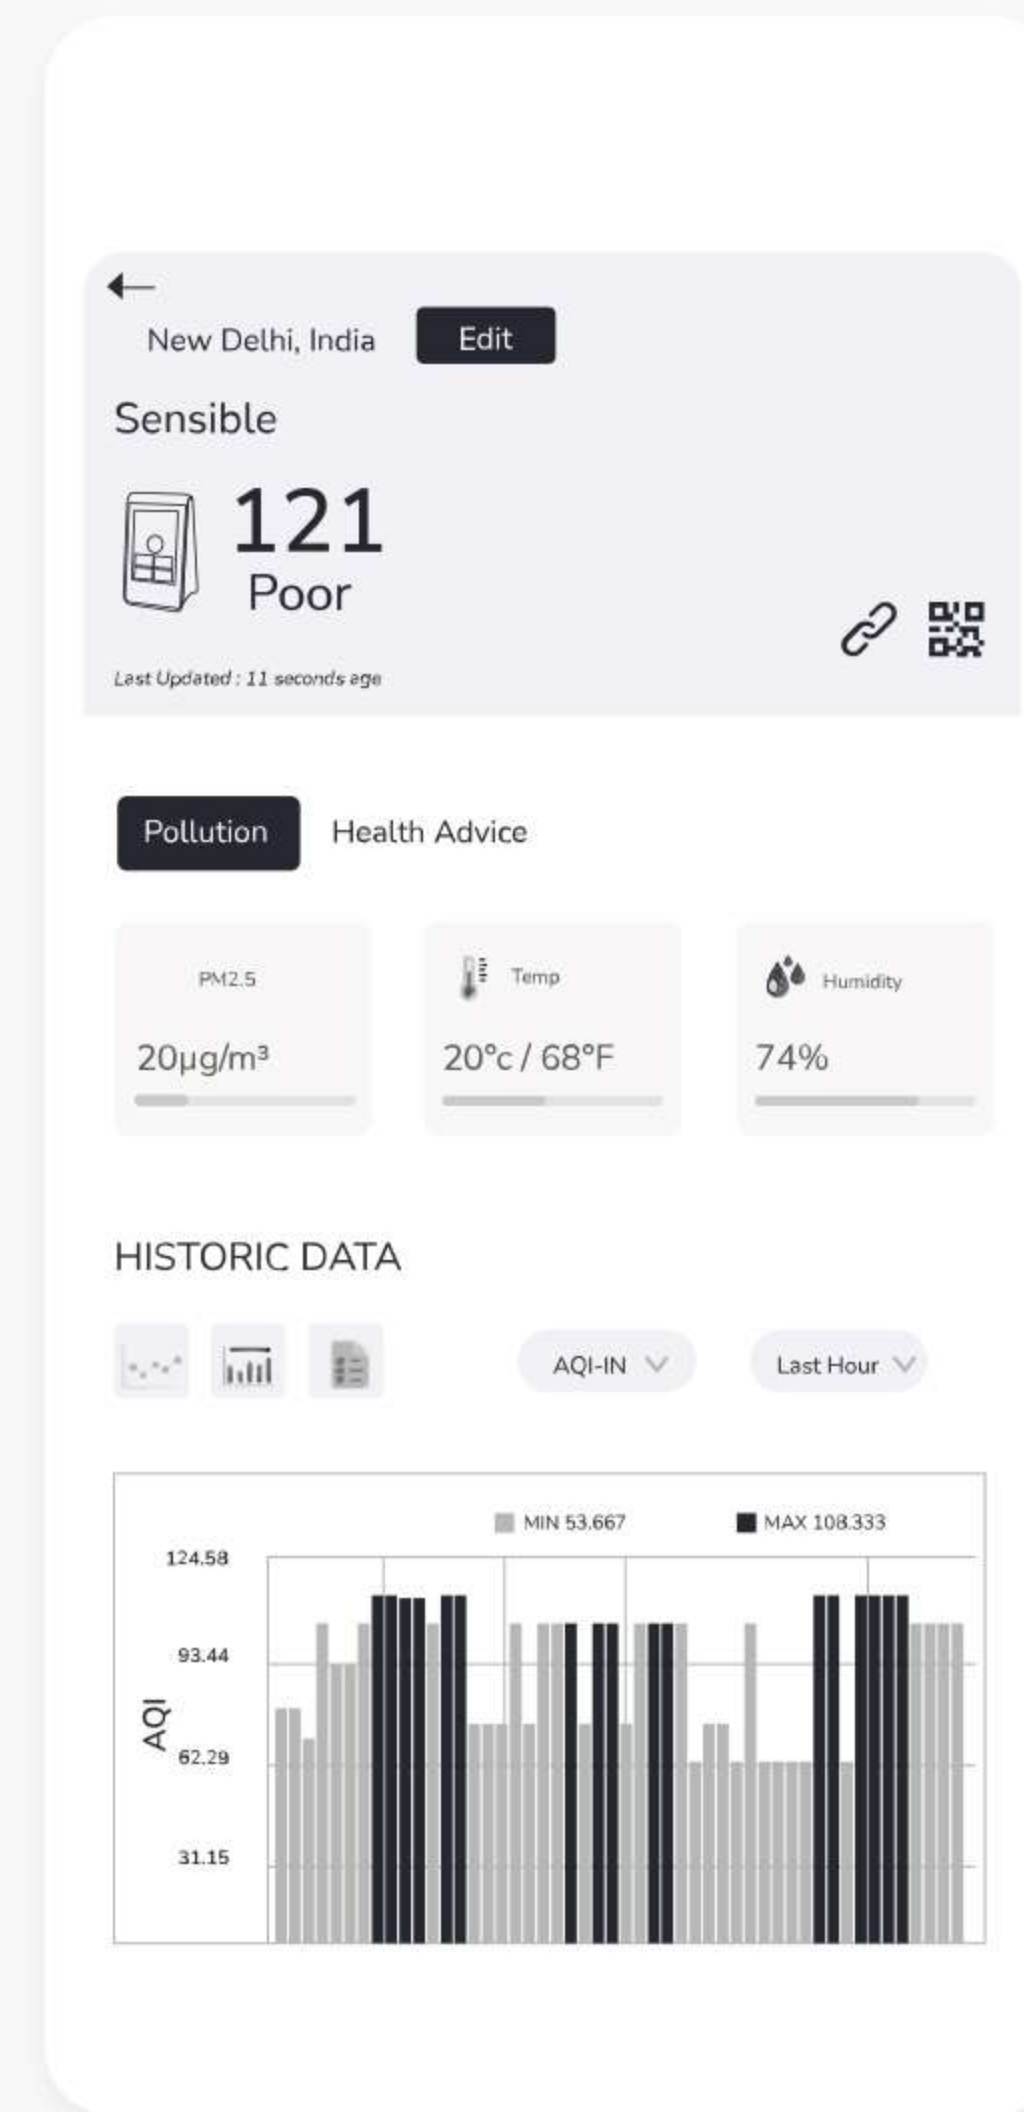

Status :  
**Device Online**

Status :  
**Device Offline**

**8** Click on your device card in "My Devices" to get a detailed view of the monitored data. Click on the **"Edit button"** to edit the details of the device.

**NOTE:** The device will continue to display as online for 30 minutes even after going offline.

## Change outdoor location on Sensible :

- 10 Click on the **"Edit button"**, scroll down the 'Edit Device' page. Under 'Select Outdoor Monitor' Choose the location you want to display on Sensible. Click on the **"Save"** button.

← Edit Device

Kishan pura

Country: Office | State: Home

City: New Delhi

SELECT OUTDOOR MONITOR

Country: India | State: Delhi

City: New Delhi

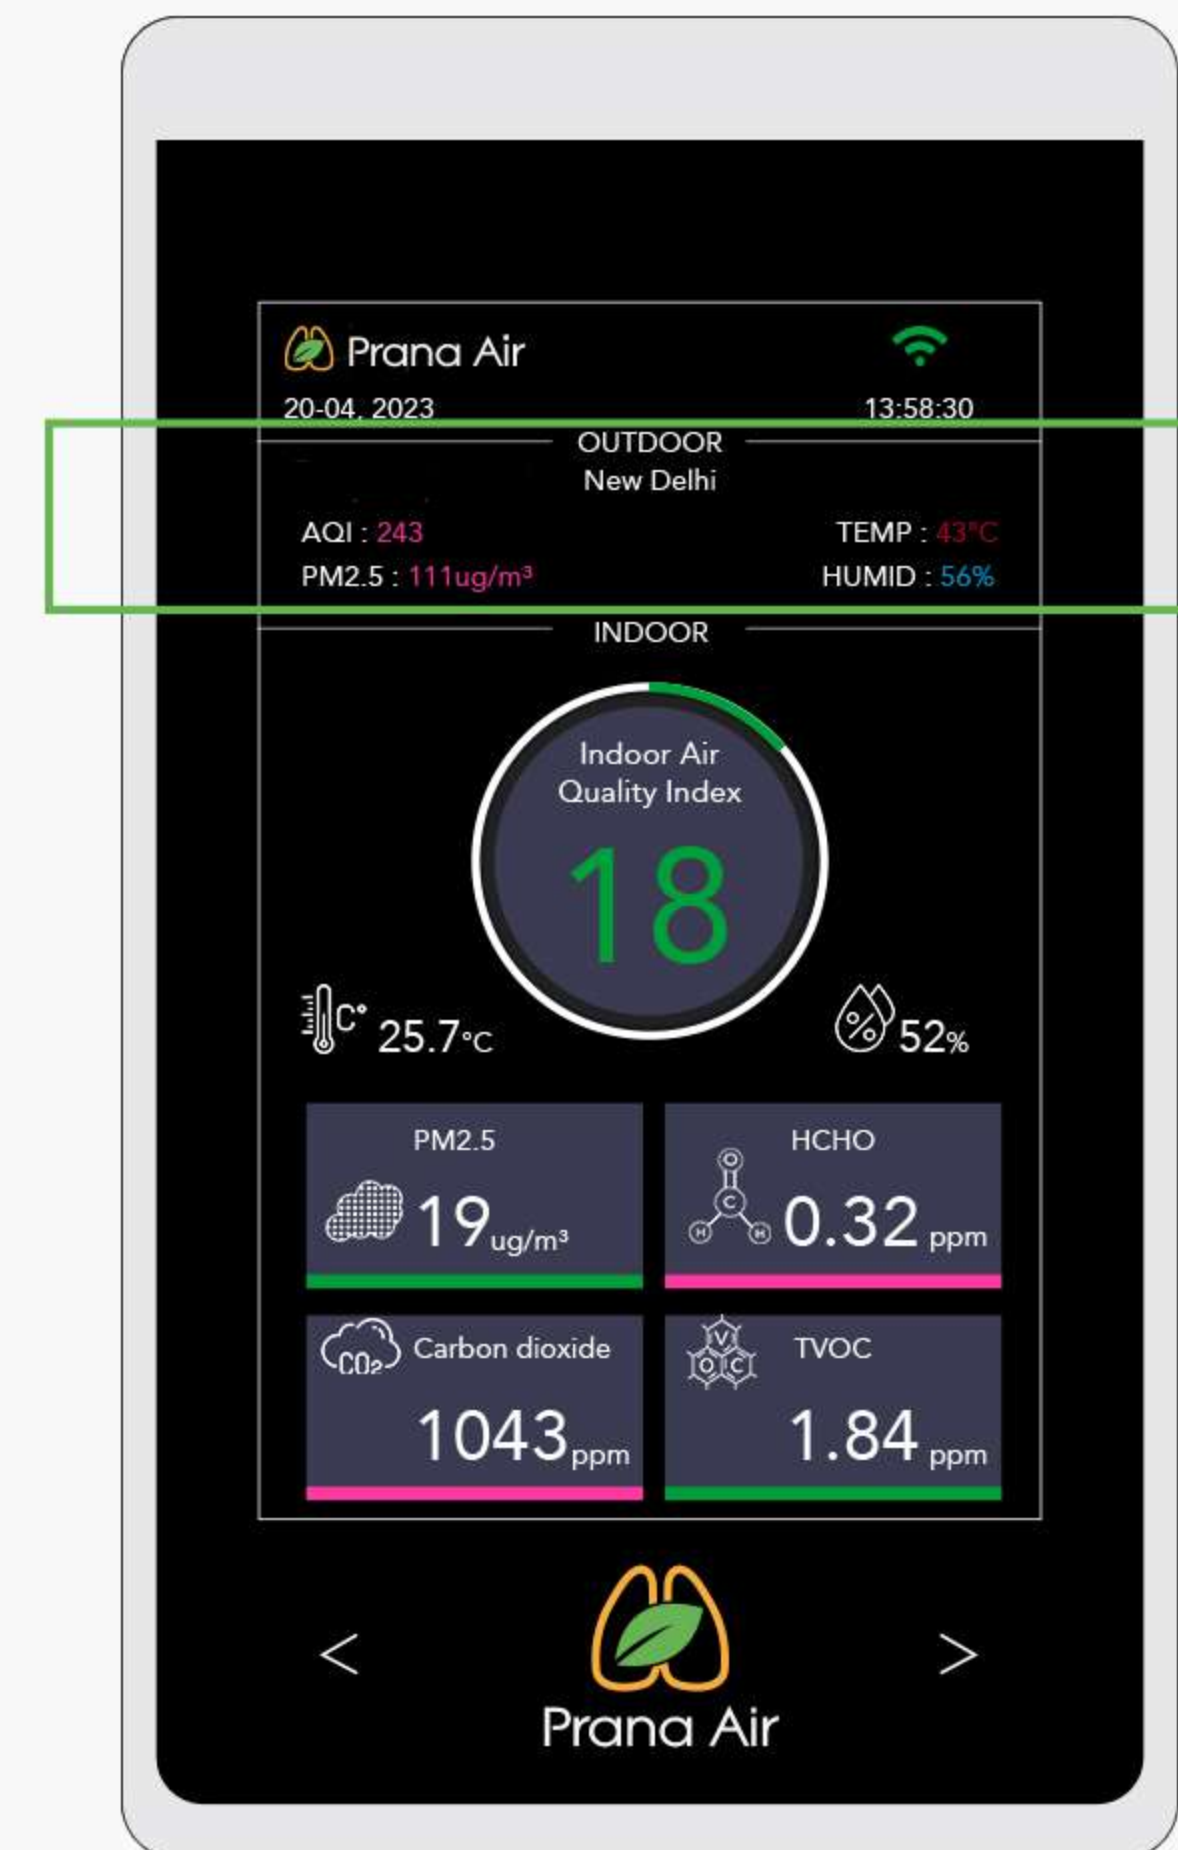

Select Monitor: New Delhi

Pin code

LOCATE ON MAP

Save Remove Device

- 11 The device would now display the selected outdoor location (In case it doesn't change itself, restart the device).

# How to log in/ sign up?

---

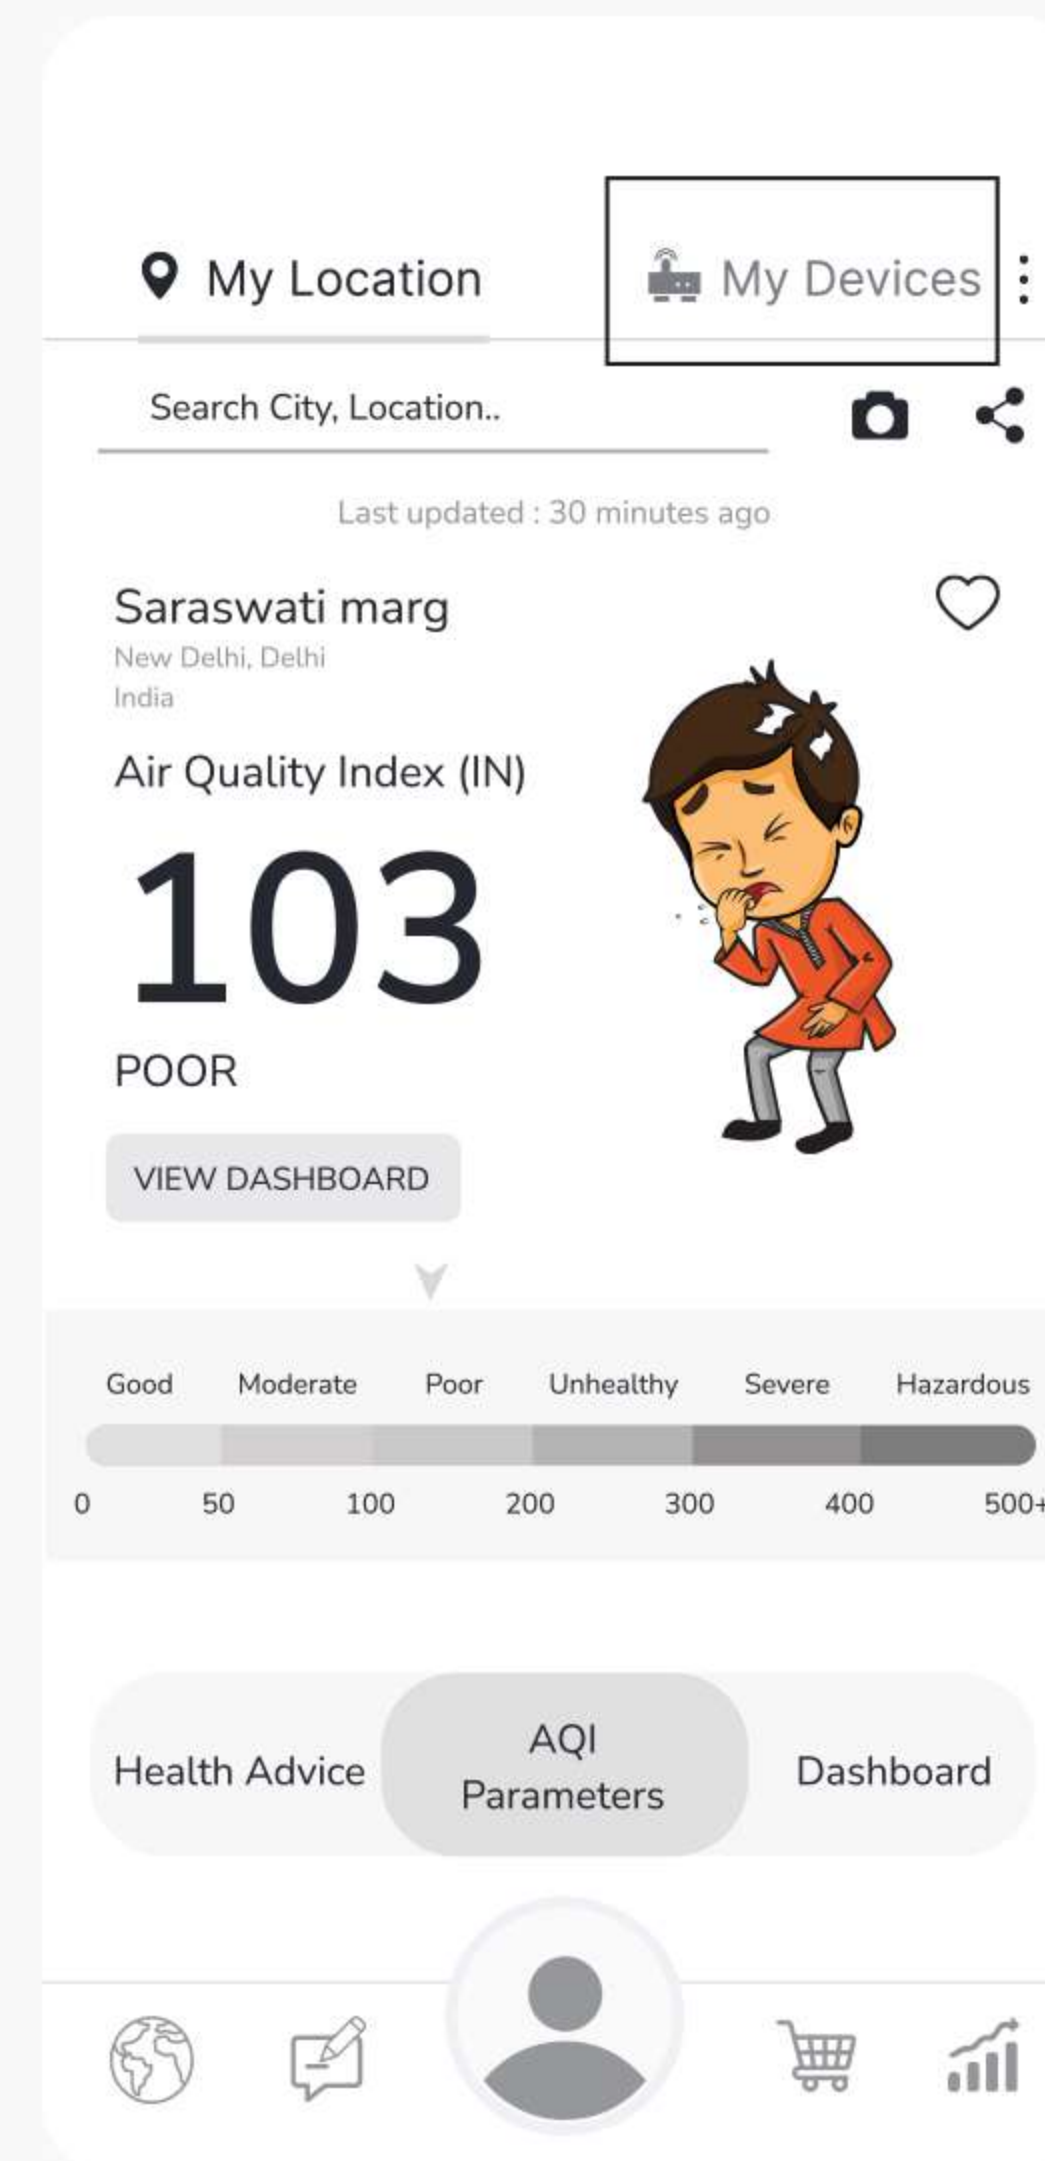

To provide access control, track monitored data, personalize the experience, and facilitate communication between users and the devices.

## Sign Up :

- 1 Install the AQI India app on your smartphone.

- 2 Open the app and click on "My Devices" from the top right corner of the screen.

3 Click on the "Create New Account" button.

**SIGN UP**

**Already have an account**

- 5 Your account is created. You will be redirected to 'My Devices' section where you can add different devices.

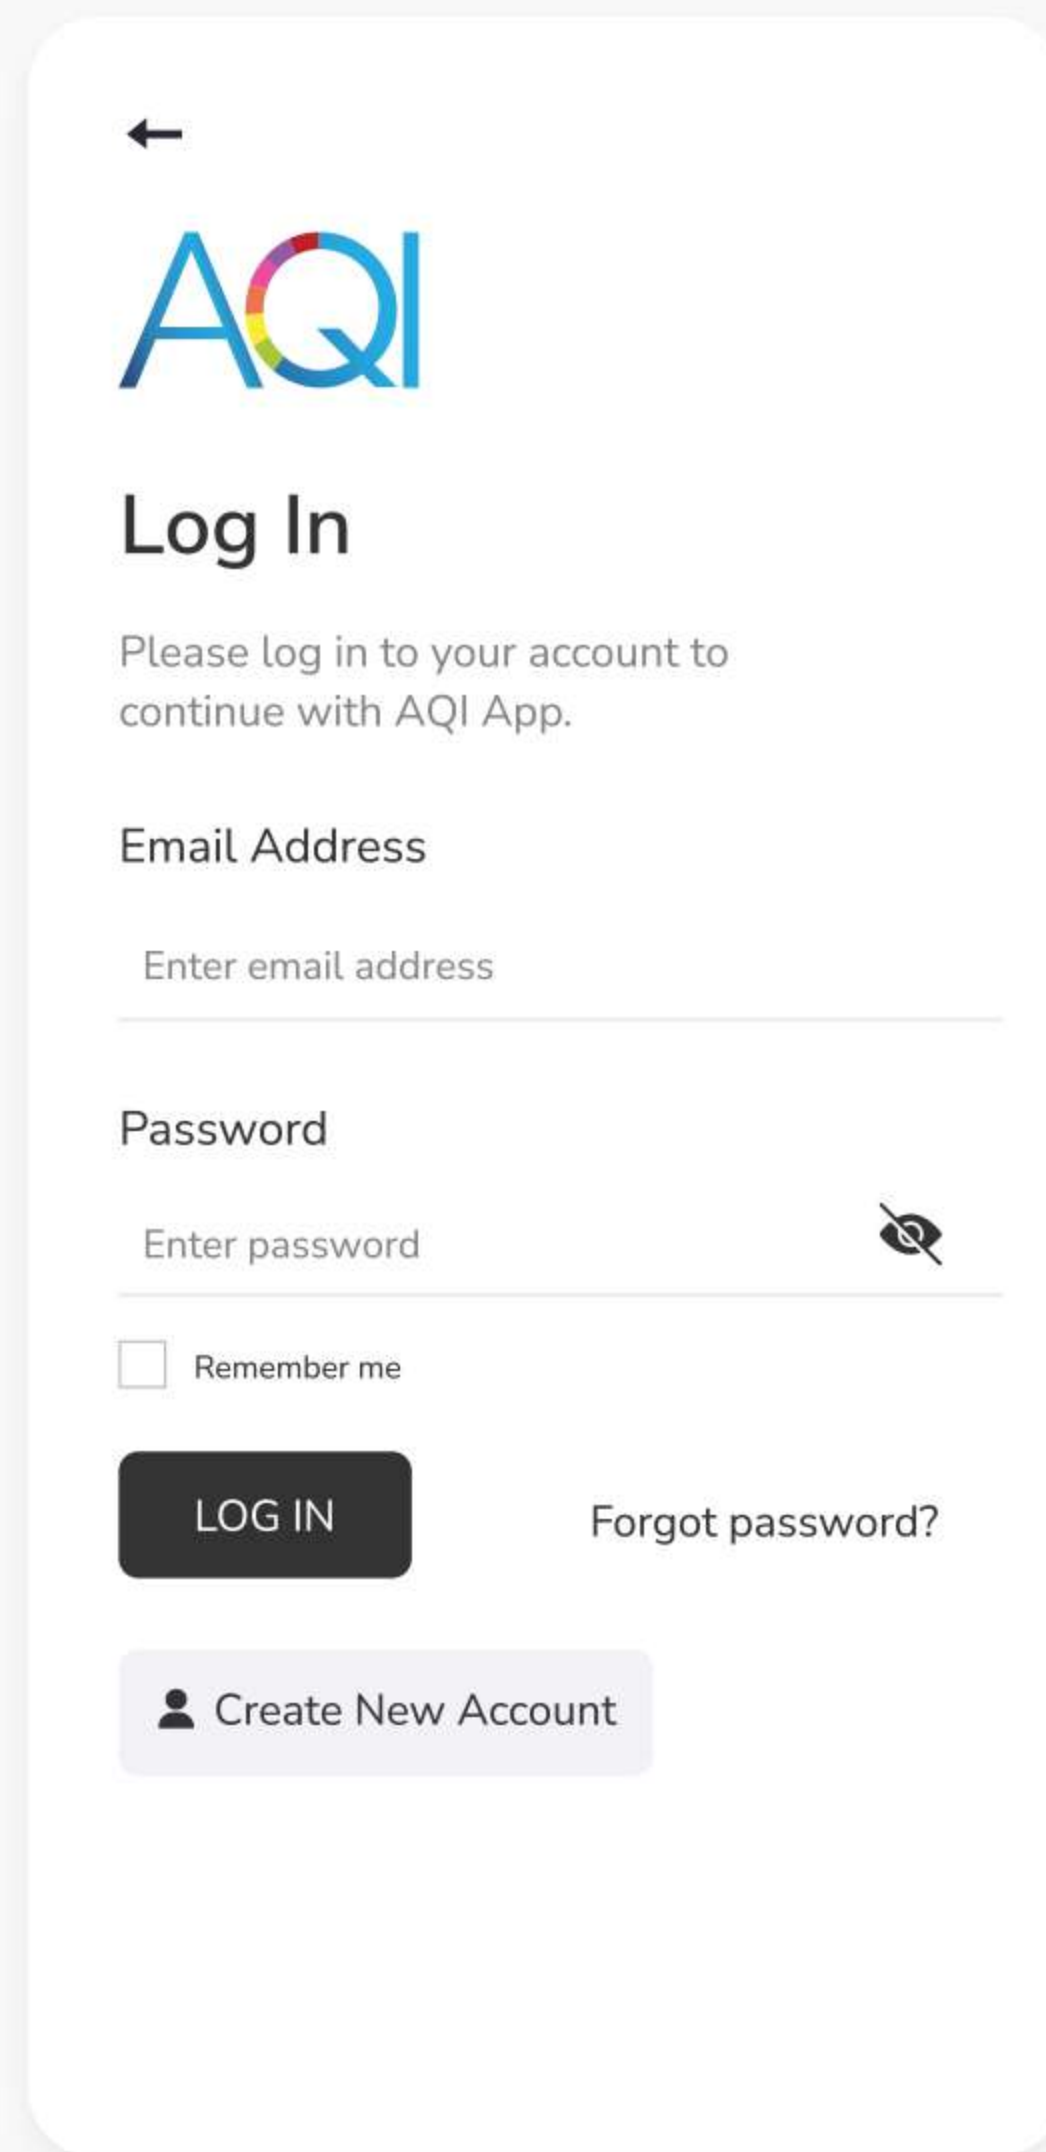

## Login :

- 1 Open the app and click on "My Devices" from the top right corner of the screen.

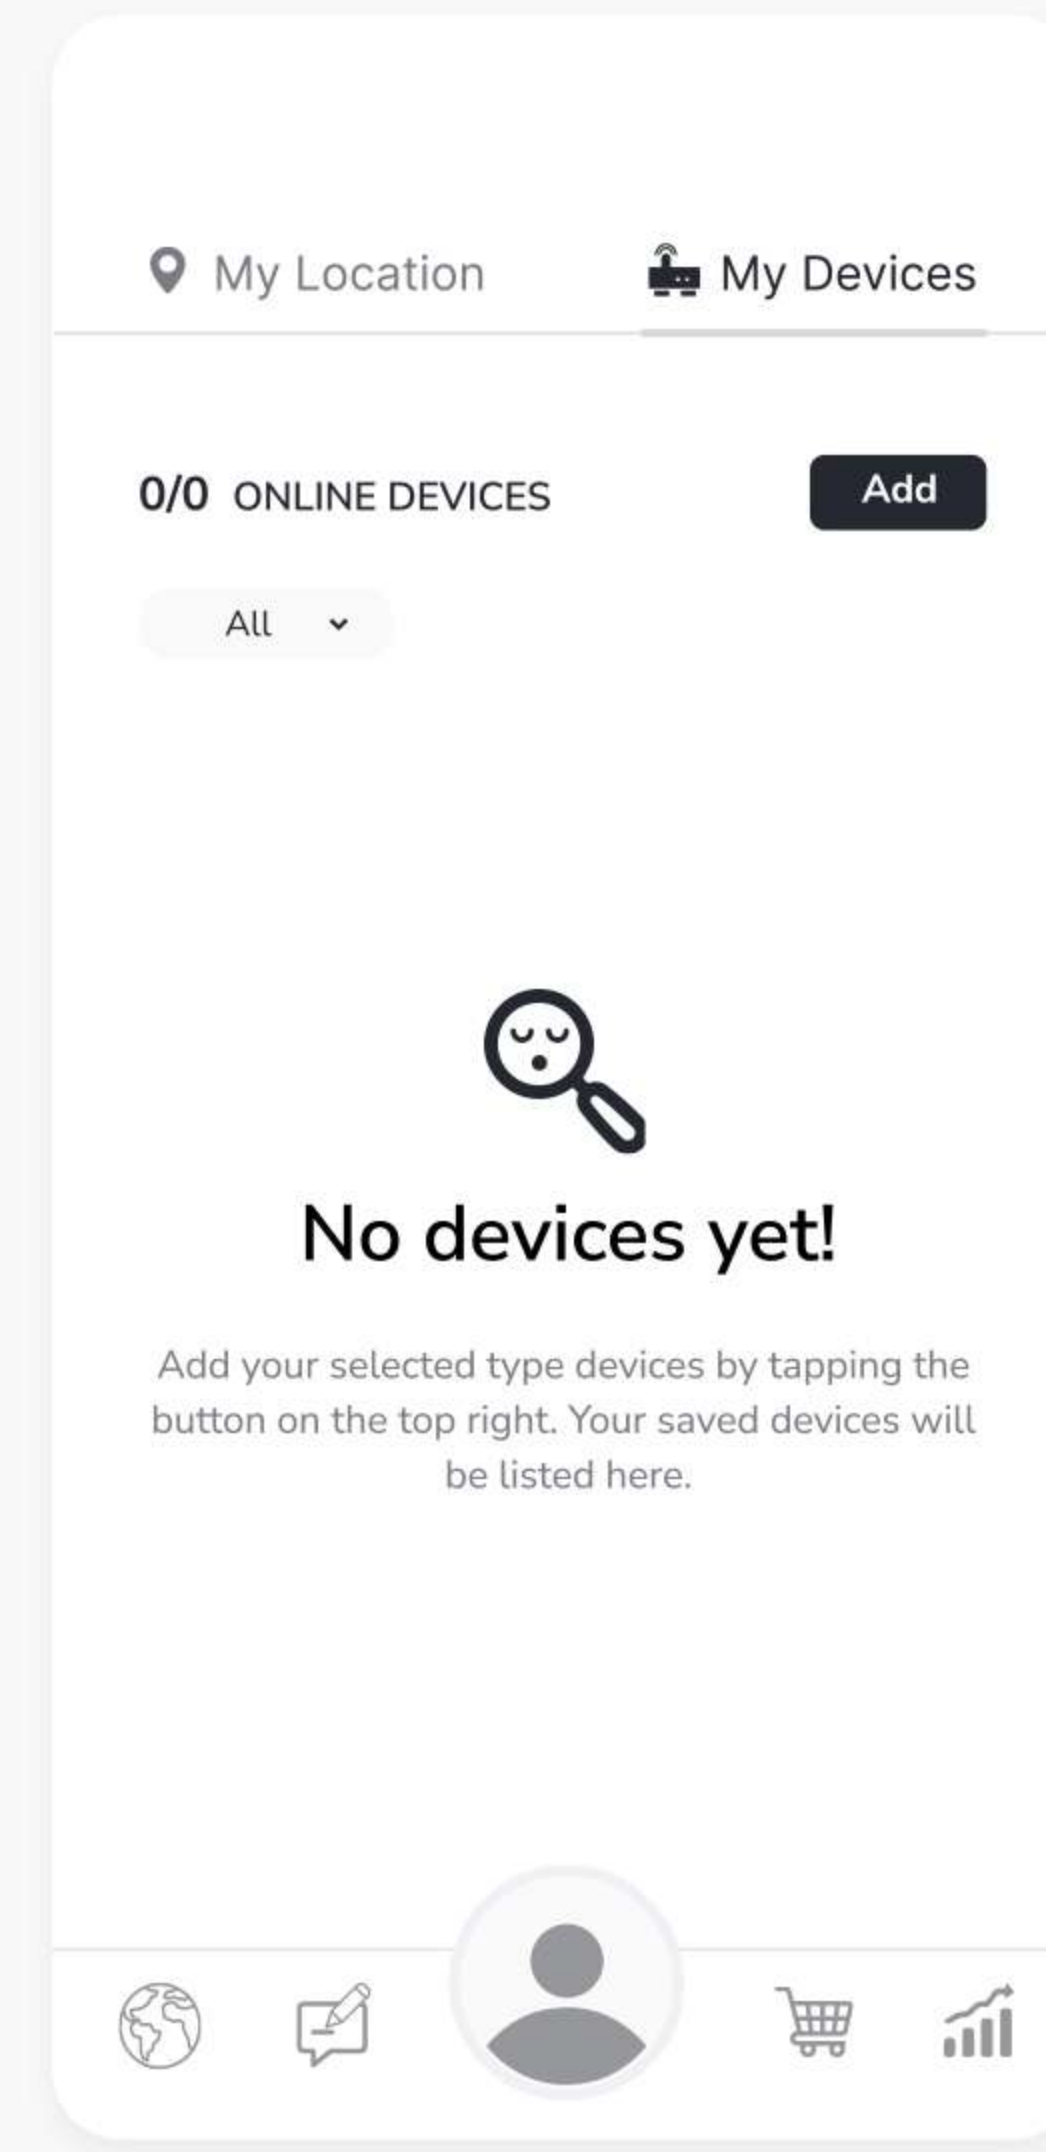

- 3 Enter your credentials and then click on the "Log in" button.

The screenshot shows the login page of the AQI app. At the top left is a back arrow. Below it is the AQI logo. The title "Log In" is centered. A message reads: "Please log in to your account to continue with AQI App." There are two input fields: "Email Address" with the placeholder "Enter email address" and "Password" with the placeholder "Enter password" and a toggle icon. Below the password field is a "Remember me" checkbox. At the bottom left is a "LOG IN" button, and to its right is a "Forgot password?" link. At the very bottom is a "Create New Account" button with a person icon.

- 4 You have now successfully logged in to your account. You can easily add devices and check the data remotely 24\*7.

The screenshot shows the "My Devices" screen in the AQI app. At the top, there are two tabs: "My Location" and "My Devices". Below the tabs, it shows "0/0 ONLINE DEVICES" and an "Add" button. A dropdown menu is set to "All". In the center, there is a magnifying glass icon with a sad face, and the text "No devices yet!". Below this, a message says: "Add your selected type devices by tapping the button on the top right. Your saved devices will be listed here." At the bottom, there is a navigation bar with icons for Home, Messages, Profile (which is highlighted), Shopping Cart, and Analytics.

# Safety Guide

---

To ensure safe and proper usage of this product, please refer to the following safety guide before operating the device.

- 1 Read and follow the user manual before using the device.
- 2 Avoid exposing the device to extremely high temperatures, and humidity.
- 3 To avoid damage, keep the device away from water and other liquids. It can damage the device.
- 4 Take appropriate precautions if you are aware of any potential hazards or risks related with the specific environment you are monitoring.
- 5 **Preventive measures:** If the gadget detects high levels of pollutants or other potentially hazardous substances, take precautionary measures such as opening windows or leaving the area.
- 6 **Connecting to the network and app:** When connecting to the wifi network and the AQI app, kindly read the instructions carefully.
- 7 It is important to only use Prana Air repair services to fix the device.
- 8 **Accessories:** The user has the option to use an alternative adapter (with the same power rating) and USB cable.

**NOTE:**

The user can also opt for an alternative 5V/2.5A adapter.

# Safety and maintenance

---

The safety and maintenance section of this product manual provides important information on how to use and maintain the device in a safe and reliable manner.

- 1 Having a comprehensive understanding of the safety and maintenance instructions for the device can enable you to use the device more safely and efficiently, and help to extend its lifespan as much as possible.
- 2 Make sure to turn on the device properly and assemble its accessories correctly.
- 3 The device is not waterproof. Please keep it and all the accessories dry.
- 4 If the air quality monitor is not functioning properly, do not attempt to repair it yourself.
- 5 Store the air quality monitor in a cool, dry place when not in use. This will help prevent damage to the device and extend its lifespan.
- 6 Do not drop, shake, or knock the device. Do not use the device without the table mount or wall mount. Violent usage may lead to screen breakage or damage the internal circuitry.

# Service Guidelines

---

This section outlines the recommended maintenance procedures and service requirements for ensuring the optimal performance and longevity of the device.

## A. Warranty Terms

- 1 The device comes with a 1-year warranty against manufacturing defects.
- 2 A valid proof of purchase is required to be eligible for repairs or replacements.
- 3 Warranty will be void in case of physical damage.

## B. Sending and Retrieving the Device for Repair

- 1 The customer must provide the necessary information, such as name, contact number, and fault description, to complete the repair work order.
- 2 If payment is made by cheque, the device can only be retrieved after the cheque has cleared.

## C. Warranty Description

- 1 The warranty covers only the device and its accessories under normal usage. No warranty will be provided if the device is damaged due to any of the following reasons:
  - 1.1. Warranty period has expired.
  - 1.2. No valid proof of purchase is provided, or the purchase date is beyond the warranty period.
  - 1.3. The content on the valid proof of purchase is different from the actual product or has been altered.
  - 1.4. The device is damaged due to improper usage or maintenance.
  - 1.5. The device is damaged due to moisture, liquids, or falling, or has been repaired or disassembled by an unprofessional.
  - 1.6. Damages due to force majeure.
  - 1.7. Normal wear and tear (*such as outer cover, buttons, and screen*).
- 2 Both national and international services can be availed only at Prana Air's office.
- 3 All replaced parts, components, and accessories during warranty services will be kept by the Prana Air service center.
