

Pocket CO2

Air Quality Monitor

This smart pocket pm monitor can measure CO2 Levels in your surroundings.

Wi-Fi Connectivity

Introduction

PureLogic Labs is our venture which was founded in 2017 wherein we render personalized solutions to innovative ideas for discrete environmental problems. The company came into existence to increase awareness about the growing levels of air pollution which have reached an alarming stage in India.

We have two separate divisions which come under Pure Logic Labs, that is **AQI** and **Prana Air**.

Introducing

Pocket CO2 Monitor

Utilize the Prana Air Pocket CO2 Monitor to gain insights into the surrounding CO2 levels. This compact CO2 monitoring device is conveniently portable, making it effortless to carry.

This device aids in assessing the Carbon Dioxide concentration in your vicinity, functioning effectively for both real-time indoor and outdoor CO2 monitoring. The LCD display provides CO2 readings, offering a clear indication of whether the air is safe or not.

Pocket CO2

Qualitative Features

An intelligent pocket-friendly monitor to keep a tab over the air you breathe.
